

## **Department of Agricultural Statistics**

### **Background**

Department of Agricultural Statistics is one of the integral parts of B. A. College of Agriculture; Anand came into existence in 1947 as a tiny Statistical cell and later on as a full-fledged department under erstwhile Gujarat Agricultural University and now Anand Agricultural University. The department is actively involved in teaching to undergraduate, postgraduate and polytechnic diploma students. The department also serves to the Post graduate Students, Extension Persons and Scientists in agriculture and allied fields for their research projects with regard to planning of the experiments, statistical analysis and interpretation of results.

### **Facilities at the department**

Department of Agricultural Statistics has a separate premises merged with the College building constructed exclusively with all modern facilities. There is a separate Seminar cum Conference hall, Classrooms with Projectors, offices for staff and a computer laboratory. The lecture halls are specifically segregated for tutorials and lectures, Lab-cum-classrooms make it easier for theory and practical to run alongside. There is separate toilet facility for male and female student-teachers. There is an open space all around the department with an adequate parking facility for all types of vehicles.

Apart from computer laboratories and PG students' room equipped with computer and Internet, there is a separate data analysis lab with various data analysis software such as SPSS, SAS, SPAR-1, SPAR-2, Window Stat, Systat, R, Python and other DOS based programs for scholars and scientists.
