

Ongoing research programmes (as approved in AGRESCO-CISC):

Exp. Number	Experiment Title
CI 13.1.3.4	Evaluation for superior quantitative & qualitative traits in marigold (<i>Tagetes</i> sp.) and peacock flower (<i>Caesalpinia pulcherrima</i>) hybrids.
CI 14.1.3.1	Interspecific hybridization for transferring aphid resistance to cultivated mustard [<i>Brassica juncea</i> (L.) Czern.] varieties.
CI 15.1.3.11	Identification of molecular markers associated with Yellow Mosaic Disease Resistance in Blackgram (<i>Vigna mungo</i> (L.) Hepper).

Accomplished research projects:

Sr. No.	Title	Funding Agency	Period
1	Genetic Enhancement of Rainfed and Irrigated Rice yield through Molecular Approaches	Rashtriya Krishi Vikas Yojna [RKVY], GoI	2007-2012
2	Identification and Molecular characterization of genes for nutritional quality and stress resistance in major cereals of Gujarat state	Gujarat State Biotechnology Mission [GSBTM], GoG	2007-2011
3	Bio-efficacy of Progibb on Cotton & Vegetables (Chilli& Tomato)	Other Agency	2011-2014
