

Completed projects / schemes

Sr. No.	Name of project	Budget head	Funding agency	Starting year	Completion year
1	Genetic improvement of <i>Jatropha curcus</i> for oil yield and adaptability	18246-95	CSIR-NMITLI, GoI	2006	2012
2	Genetic improvement of yield and oil content in <i>Jatropha curcus</i>	18334	DBT, GoI	2007	2010
3	Development of Production to Consumption value chain for Bio-fuels from <i>Jatropha</i> through enhancing its yield and quality in Gujarat	10961-02	GoG	2008	2016
4	Enhancement of yield and other economic traits of <i>Jatropha curcus</i> through breeding	18391	NOVOD, R & D, GoI	2008	2011
5	Strengthening of mass multiplication of tissue culture in date palm and jatropha	18370	RKVY, GoI	2008	2011
6	Multi-location trial of <i>Jatropha curcus</i> in different agro-climatic zones and study of agronomic practices	18413	DBT, GoI	2009	2012
7	Conservation and resource maintenance of <i>Jatropha</i> germplasm	18461	DBT, GoI	2009	2012
8	Genome sequencing of Isabgol (<i>Plantago ovata</i> L.) and development of molecular markers	18467	GSBTM, GoG	2011	2013
9	Large Scale Multiplication of Indigenous Date Palm Trees Through Tissue Culture	18482	RKVY, GoG	2011	2016
10	Establishment of Centre for DNA fingerprinting in crops and other Bio-inputs in Agriculture	18484	RKVY, GoG	2013	2016
11	Development of EST-SSR markers for fibre quality in diploid cotton (<i>Gossypium herbaceum</i>)	18491	GSBTM, GoG	2013	2016

12	Mapping of QTL associated with drought tolerance related trait during seedlings stage in maize	18443-02	GSBTM, GoG	2014	2017
13	Development of micropropagation technology in Opuntia (<i>Opuntia ficus indica</i>)	18443-01	NDDDB, GoI	2014	2016
14	Genetic diversity analysis and development of molecular markers for drought tolerance in Teak (<i>Tectona grandis</i>) populations of Gujarat	18457-75	GSBTM, GoG	2017	2020
