

## E-10. Demonstration cum training program on agricultural implements at Dahod

A training cum demonstration program was organized on 23<sup>th</sup> March, 2017 by College of Agricultural Engineering and Technology Godhra in association with Krishi Vigyan Kendra, Dahod under project “Developing a model village incorporating farm mechanization and watershed concepts” at University campus, Muvaliya Farm, Dahod. About 145 tribal farmers/women were present in the programme. During the program, equipment procured under the said projects were distributed to the farmers for the effective use in their agricultural fields. Before distribution farmers were told about practical utility of the equipment and field demonstration farm machines and tools distributed were given to the farmers.
