

**E-20. KISAN Sanvad, on “Benefits of cultivating land by improving traditional plow”**

A online training cum video program was organized on 23<sup>rd</sup> December, 2020 by Farm Machinery & Power Engineering, College of Agricultural Engineering and Technology at campus, Godhra with coloration of KISAN Sanvad. About 30 participants were present in the programme. During the program, practical utility of the developed bullock drawn indigenous wooden plough and field demonstration were given to the farmers. The modified plough opens bigger width furrow than the traditional plough and hence it requires less time and less walk behind the plough to cover unit area for ploughing operation.
