

E-3. Demonstration cum training program on agricultural implements at Agara

A training cum demonstration program was organized on 30th September 2015 by College of Agricultural Engineering and Technology Godhra in association with Tribal Training Centre, Devagadhbaria under project “Developing a model village incorporating farm mechanization and watershed concepts” at Agara Village, Taluka: Limkheda, Distt. Dahod. About 61 farmers/women were present in the programme. During the program the basic objectives and genesis of the project were shared with the farmers. Practical demonstration & field operations of farm machines and tools distributed were covered. Later, equipments procured under the said projects were distributed to the farmers for the effective use in their agricultural fields.
