

College of Food Processing Technology & Bio Energy awarded as the "Emerging Higher Education Institute of the Year (West)" for 2018

EdTechReview is a community of and for everyone involved in education technology to connect and collaborate both online and offline to discover, learn, utilize and share about the best ways technology can help improve learning, teaching, and leading in the 21st century. It is an initiative by Eduvative Technologies LLP. EdTechReview spreads awareness on education technology and its role in 21st century education through best research and practices of using technology in education, and by facilitating events, training, professional development, and consultation for its adoption and implementation.

EdTechReview organized EdTechReview Summit & Expo at New Delhi during 2-3 February, 2018, which explored forward-looking themes in the global educational technology landscape. Sessions and Panel discussions focussed on mapping and meeting future demand for technology in education. The Summit brought together some 300 participants from various cities, representing government officials, education entrepreneurs, investors for an engaging exchange of ideas and best practices.

The event was concluded with an awards function, where the best of the edtech startups and practitioners from institutions was awarded in different categories. College of Food Processing Technology & Bio Energy is awarded as the "Emerging Higher Education Institute of the Year (West)" for 2018 for demonstrating exceptional performance in the recent past. It is a proud moment for the college and the Anand Agricultural University.
