# PLACEMENT BROCHURE 2014

B. Tech (Food Processing Technology)

M. Tech (Food Processing Technology)

College of Food Processing Technology and Bio-Energy  
 Anand Agricultural University, Anand, Gujarat, India

## MESSAGE

I am glad to learn that a Placement Brochure for the final year B. Tech. (FPT) and M. Tech. (FPT) students is being brought out by the College of Food Processing Technology & Bio Energy, Anand Agricultural University.

Sustainable food availability and nutritional security for huge populace of India is a big challenge. The food processing industry has the great potential to meet the ever increasing demand of superior quality convenience food items. For overall growth of this sector, availability of competent and specialized technocrats is of utmost importance. I am sure that thorough exposure to both the theoretical and practical aspects of food processing technology in the college must have made the graduates and post-graduates proficient enough to meet the challenges of the industry.

I take this occasion to extend my heartiest welcome to all the prospective employers and wish the students all the success in their future life.

A handwritten signature of Dr. A M Shekh.

(A M Shekh)

## From the Desk of the Principal

India is the world's second largest producer of food next to China, and has the potential of becoming the biggest producer in the years to come. The food processing industry, one of the largest industries in India, has witnessed strong growth over the past few years and is ranking fifth in terms of production, growth, consumption and export.

Considering the huge demand of the specialized human resource for this fast growing sector, College of Food Processing Technology & Bio-Energy is offering 4-years B.Tech, 2-years M.Tech and Ph.D programmes in the area of food processing technology. A team of dedicated and experienced faculty members in the College is continuously aiming at molding the youth as competent and committed professional food technologists/engineers. Innovative curriculum with latest technologies, state-of-art laboratories, experiential learning systems including industrial training in leading food plants, helps students in honing their skills for efficient production, processing, quality testing, packaging and storage of various value added and processed food products of high quality.

We welcome industries for interviewing and recruiting our students and for continuing institute-industry relationship. I am confident that our graduates and post-graduates will maintain the high standards of professionalism and meet the expectation of employers wherever they are placed. I heartily wish them a bright and prosperous career ahead.

# College at a glance

The manufacturing of food products of consistent quality and nutritional value at affordable cost is essential to the success of the food industry today. The efficient use of resources is the growing concern for all involved in food production, processing, distribution and retailing. The food industries in the country need modernization to face the challenges of the globalization especially with respect to the economic production of superior quality products. This necessitates special attention towards availability of qualified technical manpower, effective technologies and efficient machinery. Considering the huge demand of the specialized human resource for the fast growing sectors of food industry, the Anand Agricultural University has established a full-fledged College of Food Processing Technology & Bio-Energy. College offers B. Tech, M. Tech & Ph. D. programmes in the discipline of Food Processing Technology.

## Vision :

Providing excellent food processing professionals to the industry.

## Mission

The primary mission of the college is to produce highly skilled, competent and motivated technical manpower for food processing and allied industries. The technocrats so produced will also be competent to handle all the aspects of research institutes, quality testing laboratories and other related agencies. Also, the college is concerned with the exploitation of novel techniques and technologies to maximize the use of food resources.

## Mandates

- Education and training in the field of food processing technology and bio-energy so as to produce highly skilled and competent manpower for food processing industries and other agencies.
- Basic, applied and adoptive research and development in the area of agro-processing, food technology, food engineering, food quality assurance, bio-energy and other relevant subjects.
- Transfer of technologies and consultancy in different aspects related to food processing industry. .

R. M. Dhingani, M Sc, Assistant Professor  
A. M. Patel, M Tech, Assistant Professor

## Laboratories & Pilot Plant Facilities

### Laboratories

The college has well equipped and state-of-art laboratories which include:

- Primary processing lab
- Milling lab
- Material handling and storage lab
- Engineering properties lab
- Product development lab
- Processing technology lab
- Packaging technology lab
- Sensory lab
- Unit operation lab
- Heat & mass transfer lab
- Process control & instrumentation lab
- Food chemistry lab
- Food microbiology lab
- Fermentation and bioprocess lab
- Bio mass gasification lab
- Bio conservation lab
- Solar energy lab
- Mechanical engineering workshop
- Electrical and electronics engg. Lab
- CAD/CAM and Computer lab

### Pilot Plants

Various pilot plants have been installed in the college for hands on experience and in-plant exposure to the students. The pilot plants are also used to provide training to food industry personnel and unemployed youth. The pilot plant facility is also utilized for testing new technologies and test manufacturing of new food products. The pilot plants available are :

- Fresh fruit and vegetables pack house
- Fruits and vegetables canning line
- Medicinal plants produce processing unit
- Bio-diesel production plant
- Multi-products processing plant
- Bakery products processing line
- Pulses processing plant

Besides, a special state-of-art Food Quality Testing Laboratory designed for NABL accreditation established by Ministry of Food Processing Industries, Government of India has all the sophisticated high-end analytical facilities of international standard.

## Industry partners for training & placement

## Course curriculum – B. Tech. (FPT)

### Food Processing Technology

Food Processing Technology - I  
Food Processing Technology – II  
Processing Technology of Food Grains  
Processing Technology of Fruits & Vegetables  
Processing Technology of Milk & Milk Products  
Processing Technology of Meat, Fish & Poultry  
Processing Technology of Spices & Plantation Crops  
Design & Formulation of Foods  
Food Packaging Technology & Equipment  
Bakery & Confectionary Products (Elc.-I)  
Functional Foods & Nutraceuticals (Elc.-II)

### Food Quality Assurance

Food Chemistry  
Food Microbiology  
Food Biochemistry & Human Nutrition  
Food Plant Sanitation  
Food Regulations & Quality Assurance

### Food Engineering

Thermodynamics  
Fluid Mechanics  
Food Process Engineering - I  
Food Process Engineering - II  
Material Science & Engineering  
Food Refrigeration & Air conditioning  
Process Equipment Design  
Bio Process Engineering  
Food Plant Utilities & Services  
Process Control in Food Industry  
Food Plant Design & Layout  
IT Applications in Food Industry  
Dairy Engineering (Elc.-III)

### Post Harvest Engineering

Engineering Properties of Biological Materials  
Post Harvest Engineering  
Storage Structures & Environment Control

### Bio Energy

Bio energy

## Course curriculum – B. Tech. (FPT)

### Core Engineering

Basic Mechanical Engineering  
Basic Electrical Engineering  
Basic Civil Engineering  
Basic Electronics & Instrumentation Engineering  
Computer Programming & Data Structures  
Engineering Drawing & Graphics

### Food Business Management

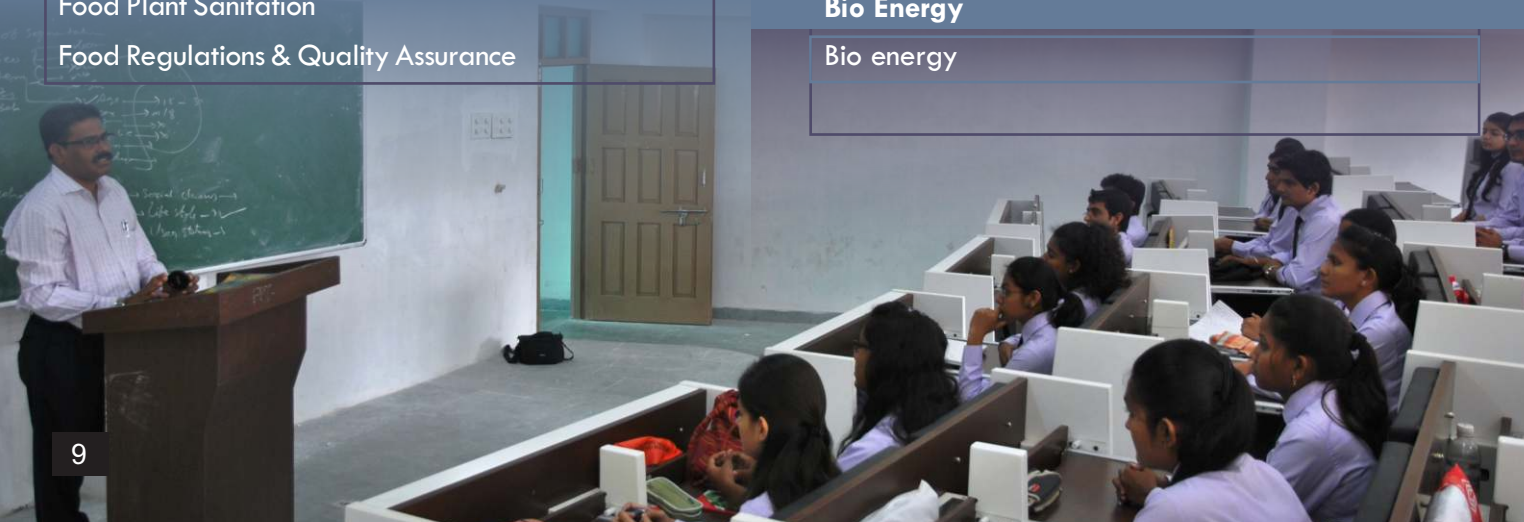

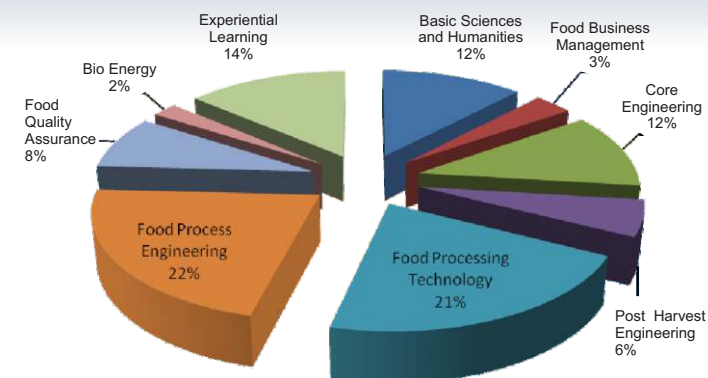

Project Management & Entrepreneurship  
Development  
Marketing Management & International Trade

### Basic Sciences & Humanities

Engineering Mathematics - I  
Engineering Mathematics – II  
General Chemistry  
General Microbiology  
Crop Production Technology  
Language & Communication Skills  
Environment Science

## Course curriculum – M. Tech. (FPT)

### Major courses

Post Harvest Technology of Agro-produce  
Advanced Food Process Technology  
Technology for RTE/RTC Food Products  
Thermal Processing of Foods  
Fermented Food Products Technology  
Advanced Food Engineering  
Functional Foods & Nutraceuticals  
Project Engineering & Management

### In – Plant Training

Special Problem  
Seminar

### Minor courses

Non-conventional Sources of Energy  
Biomass Energy Systems & Management  
Bio-environmental Engineering

### Compulsory courses

Library & Information Services  
Technical Writing & Communication skills  
Intellectual Property & its Management in Agri. (e-course)  
Basic Concepts in Laboratory Techniques  
Agril. Research, Research Ethics & Rural Development Programme (e-course)  
Disaster Management (e-course)

### Supporting courses

Experimental Design  
Food Chemistry & Analysis
