

DuPont NutriScholars Awards – Team from SMC College of Dairy Science bags Special Award for Innovative Idea

DuPont Nutrition & Health announced the first edition of its pan India Food Science Program titled 'DuPont NutriScholars Awards' (DNA) in the month of September, 2017. The DuPont NutriScholars Award ran in two phases ending September 15 and November 30 this year respectively.

This competition featured three distinctive award categories: Best Innovation in Local Foods, Most Nutritious Food Idea and Ultimate Health & Wellness Food Creation. The jury panel included renowned industry experts from leading food companies, academicians and DuPont representatives. Product innovativeness, potential to be successful in commercial market and technical skills used in product development laid the foundation for selection of best food designs across all three categories. Two hundred and seventy teams from more than 150 universities and institutions in the country participated in this programme.

In this contest, DuPont Nutrition & Health has selected the team from SMC College of Dairy Science as the winner of the 'Special Award for Innovative Idea'. The winning project title was "Development of Sugar-free Date Chhana Podo Cupcakes". The winning team in this category receives a prize of Rs. 25,000/- INR. The team members are Dr. Suneeta Pinto (Mentor), Ms. Preeti Paul (Team leader), Ms. Neha Vasava, Ms. Shivani Mishra and Ms. Neha Chauhan.

Sugar free date chhana podo cupcakes

Congratulations to Dr Suneeta and her team...
