

Training Programme
on
“Aromatic and Spice Crops Production”
organized at ARS Sansoli
(6th of February, 2017)

One day training programme on “**Aromatic and Spice Crops Production**” was organised at Farm Technology Training Centre-Nenpur under the **Centrally Sponsored Scheme (CSS)** renamed as **Mission for Integrated Development of Horticulture (MIDH)** in the immense presence of agricultural scientists and farmers on 6th of February, 2017. Total 90 farmers of different villages of Kheda district enthusiastically participated in the said programme.

Followed by registration of farmers, inauguration of programme was made by Deep Pragatan and by giving the bouquet to the invitees. Dr. B. N. Patel (Associate Research Scientist & Unit Head, ARS, Sansoli) addressed the farmers regarding the said training programme and delivered talk on “Cropping Practices of Important Spice Crops”. Lecture on “Importance and Scope of Aromatic Plants” had given by Prof. B. V. Hirpara (Assistant Research Scientist, Department of Medicinal and Aromatic Plant Research Station, AAU, Anand) and he also interacted with farmers for their farming related queries. Graveness talk on “Importance of Spice Crops and Market Potential” had been delivered by Dr. R. R. Acharya (Research Scientist, Main Vegetable Research Station, AAU, Anand).

After the noon session, lecture on “Plant Protection Measures for Aromatic and Spice Crops” had given by Prof. M. B. Zala (Assistant Research Scientist, ARS, Sansoli) and solved out the insect pests related problems perceived by farmers. Dr. J. K. Patel (Associate Research Scientist, ARS, Sansoli) had delivered talk on “Cropping Practices of Important Aromatic Plants”. At the end of programme, discussion and consultation with farmers, field visit and their feedbacks regarding training were collected.

Prof. S. A. Sipai (Assistant Extension Educationist, ARS, Sansoli) had given vote of thanks to invitees and farmers for their interactive participation.

Overview of Programme
