

Interactive session with farmers organised by ARS, Sansoli

(Date. 09/05/2017)

An interactive session with farmers was organised under the plan scheme “Strengthening of Farm Technology Training Centre” at Amsaran village of Mahemdavad Taluka on 9th April, 2017 by Agricultural Research Station, Sansoli. Total 29 farmers from said village got benefited. The main objective of this programme was to solve out the difficulties perceived by farmers in relation to crop production practices and to create consciousness among the farmers about extension activities carried out by centre.

Farming related issues of participant farmers were also solved out by Dr. T. R. Patel (Research Associate, ARS, Sansoli). A brief outline on extension activities carried out by centre and its sway in rural development was explicated by Prof. S. A. Sipai (Assistant Extension Educationist, ARS, Sansoli). He also suggested the farmers to approach the centre for their farming problems and to make themselves more updated regarding agriculture and allied sectors.
