

AD HO ETSA (AD MAKING)

Advertising is the best of the means of communication with the consumers of a product or service, using any audio or visual media. A flashy and attractive ad makes customer take a glance of the product, get influenced and buy it. So, if you have such an active talent and want to explore it, the National tech-fest ADROIT'19 is giving you an opportunity to show your talent of ad-making. Impress upon the audience with your cool advertisement and try to bring something new to convince to use the product and exhibit your skills. Time limit for showcasing ad is minimum of 30 seconds and maximum of 2 minutes. The maximum number of team members is 4.

RAZZMATAZZ (STUDENTS' GOT TALENT)

Everybody has a hidden talent that is buried deep inside somewhere. Someone good at singing, or good at dancing, while someone know how to make people laugh or to make people cry. Someone has spectacular power for mono-acting. If you are that one and feel that you have hidden talent to win hearts of people then come here and participate in our competition.

1. Solo, duet or group performances, Mime and Short skit are most welcome to show their talent.
2. Please mention the talent you or your group is going to showcase.

OUR COLLEGE

Considering the huge demand of the specialized human resource for the fast-growing sectors of food industry, the Anand Agricultural University has established a fully functional College of Food Processing Technology & Bio-Energy in the year of 2008-09. The vision of the college is to produce highly skilled, competent and motivated technical manpower for the food processing and allied industries. The technocrats so produced will also be competent to handle all the aspects of research institutes, quality testing laboratories and other related agencies. Along with this the college looks at the new prospects of exploitation of novel techniques and technologies to maximize the use of food resources. The goal of the college is to promote the integration of teaching, research and extension in food processing and bio energy by serving as a premier educational and research institute in the field of food processing technology in the State of Gujarat as well in India.

ABOUT ADROIT

On the occasion of 'World Food Day', College of Food Processing Technology & Bio-Energy is organizing the two days National Tech-Fest 'ADROIT'19 on October 16-17, 2019 at Anand.

ADROIT the Tech-Fest pushes the boundaries of young and budding food scientists' and compels them to alleviate their performance and creativity every year. From presenting posters and models to materializing the new ideas of participants, the events enthral everyone who attend ADROIT. This national technical fest has a legacy of bringing together the brightest and most skillful of young budding food professionals.

Here is an opportunity for young minds to ignite their abilities and expand their horizon of knowledge by showcasing their innovations and ideas, to prove that they are extraordinarily talented and skillful. Taking into consideration the competitive mindset of today's generation and its importance in the global arena- a blend of technical and non-technical events are being organized.

NOVOS PRODUTOS (NPD)

Everybody loves food. For some people food is always the thought and the fact that for some people food is like life compels them to look for new exotic flavors. For that some people also do some crazy experiments with their ethnic food. The Adroit team provides the platform to showcase innovative ideas and bring it under the spotlight and make it available in the shelves. As ideas are boundless in their approach, so should we. So ideas are welcomed in any food categories like RTE, RTS, RTC, organic, traditional/ethnic or any other type of food.

Rules:

1. Last date of submission of abstract (max 300 words, with name of participants) is notified in website
2. Maximum 3 participants per team are allowed
3. Participant should display their product on the day of event
4. Participant should bring report regarding product developed (No need to display poster for NPD)

ABHIVYAKTI (POSTER PRESENTATION)

A picture is worth a thousand words and a poster is worth a million! Posters are representative of the work, designed to be eye catching for the viewers and informative about the work. This event is for you as an opportunity to give your ideas and present it on the platform provided in this National tech-fest ADROIT'19 to enrich your knowledge.

Theme for poster will be displayed on our website

Rules:

1. Maximum 3 members per team are allowed.
2. A detailed poster "53cm x 86cm" in size has to be submitted.
3. The poster should contain Title, Author affiliation, Summary, Significance/ Introduction, Objectives and Approach, Results & Accomplishments, Conclusions, and Future Research.
4. The poster must be in printed form only.
5. Handmade posters will not be allowed.

WORKSHOP

A Workshop on manufacturing of processed food products will provide knowledge in operating state-of-the-art machinery and processing lines to the participants. Its objective is to develop occupational competencies of the participants. This will help them to familiarize with work methods and expose them to the necessary experience to handle equipment and machinery. So, we the adroit team are providing you an incredible experience in our very own Experiential Learning Unit.

SANRACHNA (MODEL MAKING)

For thousands of years people have been creating models to translate and improve their ideas into three dimensional realities. Model making is a next logical step in the thinking process for many ideas. In a way, everyone is a model maker when they translate an idea into physical reality. Food Engineering nurtures upon innovations pertaining to sustainable development alongside this technocratic world. Eradicate your anxiety and develop a prototype/model (semi working or static) that will be admired by others.

In this event, you can rewrite history or envision the future. Redefine the laws of gravity and the theories of relativity as you dream up alternate universes and envision fantastic futures. Your creativity, new idea, floor presentation, design and fabrication skills shall be the criteria for deciding the winners.

So, here is an opportunity for all the young minds to demonstrate their talent by making asemi-working and static model of an existing idea or innovation or a concept of your own.

AFECERI IDEE (BUSINESS IDEA)

You think you have entrepreneurial attitude, hola! We also think so. Business is a combined application of Commerce, Science and Arts. Businesses these days demand an out-of-the-box thinking and letting your imaginations run wild. Creativity and Innovations convert opportunities into marketable ideas for Entrepreneurs. It is the means for which they become catalyst for change. Give yourself Per-Mission to be all that you WANT to be. Any business can make millions and millions, even if you sell a common product in right way. For this you need 3 things: idea, creativity and sources.

Team Adroit brings a competition in which they will be judged on their business theme, presentation skills etc. It is intended as a platform to encourage youth to express and exhibit their ideas and turn them into reality that combines technology, vision and business acumen. Here you would be able to innovate your entrepreneur skills by incorporation of new innovative ideas, suggestions and advises from experts' panel. SO, get ready for our own "shark tank". Selected business ideas may get the opportunity for further incubation under Start up Support Scheme / Students Start-up & Innovation Policy.

Rules:

- 1) Maximum 3 Members per team
- 2) Teams will have to submit an abstract of their business idea 15 days prior to the event
- 3) Abstracts will be scrutinized by an expert panel and teams selected will go to the final round
- 4) The teams selected for the final round will have to submit their final ppt presentation 2days prior to the event
- 5) Visit Website for further details

X-QUIZ-IT (FOOD QUIZ)

We did talk about bright minds, right? We "cynical" people like to test that as well. We all love to explore different food stuffs, so let's check your knowledge about the same. So be prepared...it wouldn't be easy as it is a national level food quiz contest with a tinge of technology & business covering topics related to Food Science, Food Processing, Food Engineering, Food Business, Food Safety, Food Nutrition and Food Quality, etc.
