

Dr Subrota Hati received prestigious award from Indian Science Congress Association

Dr. Subrota Hati, Assistant Professor, Dairy Microbiology Department, SMC College of Dairy Science, Anand has been conferred the most prestigious ISCA Dr. (Mrs.) Gouri Ganguly Memorial Award for Young Scientist: 2019-2020 in the category of Animal Sciences, Veterinary Sciences and Fishery Sciences sponsored by Indian Science Congress Association (DST, Ministry of Science & Technology, Govt. India). The award was presented during 107th Indian Science Congress held in University of Agricultural Sciences, Bangalore on 4th January, 2020. He is the first person receiving this award from Dairy Science background (B.Tech. in Dairy Technology). He received plaque, Cash prize and Certificate during the inauguration function of Animal Sciences. The award was given on the basis of published research papers with citation, h-index, book chapters, published books, other awards at National and International level, recipients of fellowships from National Academies for his outstanding contribution on Animal Sciences, particularly, in Dairy Microbiology. His work on purification and characterization of antihypertensive peptides derived from different species of fermented milks (cow, buffalo, camel, goat and soy milks) produced by indigenous well characterized lactic acid bacteria helps to manage the hypertension without side effects.
