**Expert Lecture Series #1 on Interpretation of Results in Agricultural Experiments
organized at Department of Agricultural Statistics.**

As a part of BACA Amrut Mahotsav Celebration, Expert Lecture Series # 1, “Interpretation of Results in Agricultural Experiments”, was organized by the Department of Agricultural Statistics on Thursday, July 14, 2022 at the PG Seminar Hall.

Dr P R Vaishnav, Retd. Principal and Dean, B A College of Agriculture was invited as a resource person to deliver this expert lecture.

After floral welcome, Dr A D Kalola, formally welcomed Dr Y M Shukla, Dr P R Vaishnav, Dr D B Sisodiya, Joint Organizing Secretary, Platinum Jubilee Celebrations, all the present Head of the Departments, Faculty Members and students along with a background to the lecture topic.

Dr P R Vaishnav, thoroughly covered different situations of outcomes in experiments of agricultural research in field conditions, and explained its interpretation and diagnostics on case-by-case basis with working examples.

In an interesting interactive session followed by the lecture, students as well as and faculties expressed their queries in field experiments and approaches to interpretation and remedies to the same.

Dr Y M Shukla, delivered his concluding remarks and also emphasized on importance statistical analysis in agricultural research.

At the end, Dr P R Vaishnav was formally felicitated with a shawl and a memento. Dr X U Shukla, Assistant Professor, Department of Agricultural Statistics, offered vote of thanks. Ms Radhika Ghetiya anchored the event.

This lecture session was attended by around 50 PG students and faculty members.
