

### Field Day organized by RCRS, AAU, Viramgam at Kidiyanagar (Ta. Rapar, Dist. Kutch)

Regional Cotton Research Station, Anand Agricultural University, Viramgam has organized field day programme under the guidance of Honourable Vice Chancellor Dr. K. B. Kathiria, Anand Agricultural University, Anand at **Kidiyanagar Village (Ta. Rapar, Dist. Kutch)** on **14/02/2023**. Member's of Rapar Taluka Sangh and farmers of cooperative societies were present on the GADC 3 FLD plot. Total 136 progressive farmers from different villages of Raper talukas (District-Kutch) were registered and participated. In this training, Dr. T. T. Patel, Associate Research Scientist and Head, RCRS, AAU, Viramgam showed the differences between G cot 21 and GADC 3 to the farmers on the field. He discussed about modern and recent cultivation practices and newly released varieties of desi cotton and seed spices crops. Dr. D. R. Patidar, Assistant Research Scientist, RCRS, AAU, Viramgam advised the farmers not to use more than the recommended quantity of inputs so as to get more income at less cost. The farmers asked questions related to crop cultivation and the questions of the farmers were settled by giving proper answers by the scientist of the Anand Agricultural University. On the occasion of Millet year, Bajra (Pearl Millet) *roti* were served to participate during lunch. All the members of cooperative societies and farmers highly appreciated the programme.
