

## Important guideline for professors and students.

### Professors

- They must use laptop or desktop system
- Must use latest version of Google chrome browser
- Always use <http://a.impartus.com> to login to Impartus account (virtual class didn't work on any other URL even if provided on login information)
- While sharing camera, microphone, screen if Google chrome browser asking for permission always select Allow to give permission to use those devices by chrome browser.

### Students

- We recommend to use smartphones to attend the classes.
- In android and iPhone Impartus application available to install.
- Always use the application in mobile devices instead of browser in mobile.
- In application use the correct loginid and password only (Advanced setting not required like IP address)

Kindly circulate this information to all your students and professors to avoid issue during taking and attending the classes.
