

## **"Jai Kisan Jai Vigyan" week celebrated by Krishi Vigyan Kendra, AAU, Dahod**

Krishi Vigyan Kendra, Anand Agricultural University, Muvaliya Farm, Dahod organized and celebrated "Jai Kisan Jai Vigyan" week from 23.12.2016 to 29.12.2016. In this programme, Senior Scientist and Head, Dr. U.M. Patel informed the farmers about the various activities of KVK and lectures on different subjects were delivered by the concerned Scientists. On 23.12.2016 at Chanasar village 25 farmers were made aware about Organic Farming. They were taught how farm waste and residues can be utilized in a beneficial manner for Organic farming in the form of farm yard manure, vermicompost, green manuring etc. Also, on 28.12.2016 at "Yash vatika Uttar Buniyadi Vidyamandir", Jesawada, 1070 students were given lectures on Scientific Agricultural Practices. The students were informed about the new scientific techniques like Drip irrigation, Machine milking, Tissue culture and Grafting. Thus awareness was created among the students about how science and scientific developments help the farmers in their farm for sustainable livelihood. Moreover, information about Agriculture Skill Council of India (ASCI) was shared from the platform.
