

## **“How to Avail Academic Opportunities after PG program?”**

A lecture for M Tech students on availing academic opportunities after Post Graduate Programme was organised at College of Food Processing Technology and BioEnergy, Anand Agricultural University under the guidance of Dr. D R Kathiriya, In-Charge Principal and Dean.

The lecture started with welcome of Dr. Parag Prakash Sutar, Associate Professor and Head Department of Food Process Engineering at National Institute of Technology, Rourkela, Orissa.

Dr. Sutar highlighted that in this competitive era, lot of students are planning for higher education after completion of the Post Graduate program. However, getting admission in these premier institutions like IITs, NITS is difficult due to the requirement of publications in journals of international repute as one of the major criteria. He highlighted that innovation in another key point, which is must for publication and most journals are looking for it. Therefore, students must search for innovation in their Post Graduate research work. He also gave live examples of role of artificial intelligence in Food Processing.

Dr. H Pandey, Dr. Anurag Nema and Prof. P S Parsania were present on the occasion. Around, 19 students of M Tech first and final year participated in the said program. The program ended with vote of thanks. Some of the glimpses of the program are as below:
