

Mr. Vishal Agravat, PhD Student, CAET, Godhra was invited in Global Innovation Lab 2022 in alignment with UN Sustainable Development Goals

Prime Minister of Denmark, Mette Frederiksen, and Prime Minister of India, Shri Narendra Modi, has unveiled that the 2022 year edition of UNLEASH took place in India. The two Prime Ministers delivered a joint statement noting that UNLEASH had been launched in the state of Karnataka.

It was a global innovation lab during December 3rd Dec. to 10th 2022 that brings together 1,000 carefully selected young talents from around the world out of total of 19,000 entries to collaborate on ideas and solutions for the UN Sustainable Development Goals (SDGs). UNLEASH started in Denmark in 2017 and moved to Singapore in 2018 and Shenzhen, China, in 2019. During COVID-19, UNLEASH launched a series of digital activities to continue to build capacity among global youth and launch SDG-solutions amidst the pandemic.

It was placed at Infosys' Mysuru Development Center, one of the world's largest corporate universities. UNLEASH has been recognized as one of the world's most influential sustainability brands, having engaged 5,000 young people from 167 countries

and facilitated the development of 700 SDG solutions with +300 partners.

Mr. Vishal Agravat developed an electric harvester as his PhD project under Dr. R. Swarnkar, Professor, Dept. of FMPE and on basis of it the selection was possible as global talent into this prestigious innovation lab. In Lab the talents were divided into the team of five on the basis of their interests, domicile country and cultural aspects. Given freedom to choose any problem of their interest. He had given his inputs in SDG 7. The solution of his team for the women of the Sub Saharan African counties who still cooks using traditional stoves that is harmful to their health and consumes much time for the cooking process. A process was suggested for those women which includes the pellet based stoves

and community approach to mitigate this issue as well as it promotes earnings to the women.

CERTIFICATE OF PARTICIPATION

This letter is to certify that **Vishal Agravat** has successfully completed the UNLEASH Global Innovation Lab 2022 in Mysore, India.

UNLEASH is a global non-profit initiative addressing the United Nations Sustainable Development Goals (SDGs) by bringing together 1,000 young global Talents to innovate and collaborate on solutions to some of the world's most pressing challenges. UNLEASH will take place each year leading up to 2030.

In 2022, UNLEASH hosted a Global Innovation Lab for the first time since COVID-19. 1000 young people from around the world gathered in Mysuru, India, where they spent one week exploring and developing solutions to the challenges that the world is facing.

Vishal Agravat was selected from a pool of more than 19,000 applicants to attend the UNLEASH Innovation Lab in India, which took place from 3rd – 10th December, 2022. During the week-long program, participants went through an immersive innovation challenge facilitated by experts within global development, business, and innovation. In teams, participants worked on problem framing around the Sustainable Development Goals, ideated solutions to these problems, and advanced their ideas and built prototypes throughout the innovation process.

At the end of the program, representatives from each group pitched their developed solutions to a selection of judges from NGOs, foundations, and corporates, and their peers.

UNLEASH welcomes **Vishal Agravat** into the UNLEASH Global Community!

On behalf of UNLEASH,

FLEMMING BESENBACHER
Chairman, UNLEASH
