

'Scientist Meet and Orientation Programme for Rabi Krishi Mahotsava-2015' at Main Rice Research Station, Nawagam

'Scientist Meet and Orientation Programme for Rabi Krishi Mahotsava- 2015' was organized at Main Rice Research Station, Nawagam (Dist : Kheda) on 23rd October 2015. In all, 150 scientists from different faculties remained present in the meet. The scientists visited the field experimental sites for rice research in the farm and interacted with the concerned scientists of Plant Breeding and Genetics, Agronomy, Plant Pathology and Entomology disciplines.

The event was inaugurated by Dr. N. C. Patel, Hon'ble Vice Chancellor of AAU, Anand. Dr. A. R. Pathak, Hon'ble Vice Chancellor of Junagadh Agricultural University, Junagadh was the Chief guest of the function. Dr. K. B. Kathiria, Director of Research and Dr. P. P. Patel, Director of Extension Education, AAU, Anand were also present in the function.

The scientists working in the concerned discipline at Nawagam gave brief information about the work carried out by the centre and future plan of work. There was good interaction among the scientists of various faculties which provided new ideas and possibilities for rice research work to be undertaken in future. In afternoon session of orientation programme for Rabi Krishi Mahotsava-2015, six different scientists from Agriculture and Veterinary faculty gave brief information about their respective field so that the scientists included in district teams can guide the farmers during ensuing Rabi Krishi Mahotsava.
