भारत सरकार

Minister of State For Agriculture &  
Farmers Welfare and Panchayati Raj  
Government of India

D.O. No. 2444 MoS(AC&FW)/PR/VIP/2016/

दि: 11<sup>th</sup> August, 2018.

**MESSAGE**

India being an agrarian economy, knowledge and use of modern technologies tool and practices in agriculture are essential for getting better yield and leveraging livelihood. For dissemination of persistent Agricultural Information timely and precisely to the farmer community and other stakeholders, Government of Gujarat has established the first of its kind a "College of Agricultural Information Technology" at Anand Agricultural University, Anand to produce the professionals with dual domain knowledge of Information Technology and Agriculture.

I am happy to learn that College of Agricultural Information Technology, AAU – Anand is going to organize National Level Technical festival "**TECH TATVA 2K18**" on 14<sup>th</sup> September 2018. Such type of technical festival will definitely help the students and farmers as well, towards achieving the "**Digital India**" mission leading by our Hon. Prime Minister Shri Narendra Modiji.

I am sure, the college will continue to scale greater heights of glory, in the years ahead. I hope that, the college will provide the competent, highly skilled and motivated Agricultural Information Technology Engineers to the Nation.

I extend my best wishes to Dr. Dhaval. R. Kathiriya, Dean & Principal and his entire team of College of Agriculture Information Technology, AAU – Anand for organizing "**TECH TATVA 2K18**".
