“INTERNATIONAL CONFERENCE ON
NUTRACEUTICALS AND FUNCTIONAL FOODS –
THE CHALLENGES AND OPPORTUNITIES”
DECEMBER 6-8, 2016, ANAND (GUJARAT), INDIA

Introduction

The Indian Society of Agricultural Biochemists, Department of Agricultural Biochemistry, C.S. Azad University of Agriculture and Technology, Kanpur and Department of Biochemistry, Anand Agricultural University, Anand, Gujarat are jointly organizing an International Conference on “Nutraceuticals and Functional Foods – The Challenges and Opportunities” along with The XIII Convention of the Indian Society of Agricultural Biochemists at Anand Agricultural University, Anand, Gujarat, India during December 6 to 8, 2016. There has been an encouraging response from a large number of scientists relating to various theme areas of the conference since the first circular issued in December, 2015.

Nutraceuticals and functional foods has drawn much attention from the crop scientists, biochemists, biotechnologists, food technologists, pharmacists, nutrition experts and industrialists in recent times in order to develop food products having better nutritional quality. We plan to bring them together to discuss scientific and technological advances made over the years in this area. The conference will address the emerging scenario and shall formulate recommendations to serve as guidelines to those engaged in research and development in the areas related with nutraceuticals and functional foods. The entire exercise would ensure that the event becomes interactive and interesting to the participants and delegates. The second and final circular gives details of various programmes including technical session, call for abstract, important dates and deadlines etc.
