

Thalassemia Screening Test and Counselling

Vaso campus, AAU, Vaso – 387 380

Thalassemia is a blood disorder passed down through families (inherited) in which the body makes an abnormal form or inadequate amount of hemoglobin. The disorder results in large numbers of red blood cells being destroyed, which leads to anemia. In context to this the ***Thalassemia Screening Test and Counselling*** was undertaken at College of Agriculture & Polytechnic in Agriculture, AAU, Vaso under NSS Programme with the help of Indian Redcross Society, Gujarat State Branch, Ahmedabad on 16th November 2019.

The programme started with the counselling of students with brief introduction and movie clip by Shri. Bhaveshbhai Solanki representative of Redcross Society. Total 96 blood samples were drawn from the first year students of College of Agriculture and Polytechnic in Agriculture, AAU, Vaso. At the end the students of Vaso Campus make a commitment to do community awareness regarding the importance of Thalassemia Test.
