TERMS & CONDITIONS OF CONTRACT

Clause 1 - Security deposit: The person/persons whose tender accepted (hereafter called the "Contractor" which expression shall unless excluded by or repugnant to the context, include his heirs, executors, Administrators and assignees) shall

.(a) Deposit with the A.A.U. a Sum sufficient to make up the full security deposit specified in the tender in cash of Government securities (as mentioned in para 208 of G.P.W.D.) Manual Vol. 1 duly transferred in the name of A.A.U. Fund Account within a period of 10 days from the date of receipt of the Notification of acceptance of his tender or

.(b) Deposit 50% of the total security deposit as specified in the tender as DD/FDR in duly, transferred in the name of the A.A.U. Fund Account or fixed deposit receipt in the name of the A.A.U. Fund Account within a 10 days from the date of receipt of notification of acceptance of his tender. The A.A.U. shall be deemed to have been authorized to deduct the balance of 50% of the security deposit specified in the tender from the amounts that become payable to the contractor for the work done under the contract from time to time. Such deduction shall not exceed ten percent of the amounts so payable and the whole amount paid in cash or by way of deduction shall be held by A.A.U. by way of Security deposit.

All compensation or other sums of money payable by the contractor or A.A.U. under the terms of the contract may be deducted from or recouped by the realization of a sufficient part of his

Signature of the Contractor

Signature of the Executive Engineer

Security deposit or from the interest arising there from or from any sums may due or may become due by A.A.U. to the contractor on any account whatsoever and whether in respect of this contract, or otherwise. In the event of his security deposit being reduced by reason of any such deduction or recoupment as aforesaid the Contractor shall within ten days thereafter make good in cash or Government securities transferred as aforesaid any sum or sums require to make good the shortfall in the amount of the security deposit.

The security deposit when paid on cash, may at the cost of the depositor, be converted in to interest bearing Government securities in the name of A.A.U. fund account provided that the depositor has expressly desired this in writing. This is subject to the condition that 25% of the total security deposit must be held in the form of small saving certificates. If the tender / contract already accepted shall be considered as cancelled and legal steps may be taken against the contractor for recovery of the amount. The Security Deposit shall become refundable after 12 month of the final completion certificate is issued as per clause - 7. All dues under this contract otherwise shall be recovered from the aforesaid amount of the security deposit and balance shall be refunded after the final certificate is issued as per clause-7. After the expiry of the defect liability period as per clause 17 and 17A after deducting there from the amount of expenses if any. Due to A.A.U. under this agreement (i.e. after 12 months)

For A.A.U. all building works the contractor shall have to give the performance bond by supported FDR so that same can be encased without giving any reason by Executive Engineer. The performance bond shall be given by the contractor at the rate of 5% of the estimated cost put to tender along with initial security deposit all compensation, liquidated damages or other sums or money payable by the contractor shall be deducted from this amount.

The performance bond FDR shall be refunded after the Five year maintenance guarantee period is over.

* Performance bond shall be given by the contractor should be in the form of FDR of schedule bank on requisite stamp with five year free maintenance period conditions 1 to 12 as per form no. 44

Clause 2 : Liquidated damages for delay :- (i) If the Contractor fails to complete the work under contract by the stipulated date, he shall pay liquidated damages of Rs. 01* percentage of the contract value per day from the date of delaying the said work up to the date of completion and handing over to the Government.

(ii) However also if the contractor fails to complete any part of the work as designed in schedule (c) by the time indicated against such part, he shall pay liquidated damages per day from the date of delaying the said part of the work up to the date completion of the said designated part at the rates shown in the said schedule of the contract value of such part for such failure till the said designated part is completed.

(iii) The aggregate maximum of liquidated damages payable under clause no. 2 shall not exceed Rs. 0.1 percentage of the contract value per day and shall be subject to the maximum amount of ten percentage of the estimated amount put to tender.

Signature of the Contractor

Signature of the Executive Engineer

- (iv) Delays requiring payment of ten percentage liquidated damages of the amount put to tender for performance shall be sufficient causes for termination of contract and for forfeiture of Security Deposit including amount of performance bond in respect of works estimated to cost more than Rs. 15 lacs, for performance and registration of the contractor shall also be kept in abeyance for three years from the date as fixed in all cases.

(See Schedule (C))

Clause 3- Action when Whole of security deposit is forfeited: In any case in which under any clause or clauses of this contract, the contractor shall have tendered himself liable to pay compensation amounting the whole of his security deposit. (Whether paid in one sum or deducted by installments) or in the case of abandonment of the work owing to serious illness or death of the contractor or any other cause. The Executive Engineer, on behalf of the A.A.U. shall have powers.

- (a) To resign the contract of (of which rescission notice on writing to the contractor to the under the hand of the Executive Engineer shall be conclusive evidence) and in the case the security deposit of the contractor stand forfeited and be absolutely at the disposal of the A.A.U.
- (b) To employ labour paid by A.A.U. and to supply material to carryout work or any part of the work debiting the contractor with the cost of the labour and the price of the material (as to correctness of which cost and price the certificate of the Executive Engineer shall be final conclusive against the contractor) and crediting him with the value of the work done in all respects in the same manner and at the same rate as if it had been carried out by the contractor under the terms of the contract and in that case the certificate of the Executive Engineer as to the value of this work done shall be final and conclusive against Contractor.
- @ **Note :** The quantity of the work to be done within a particular time to be specified above be fixed by the officer competent to accept the contracts after taking in to consideration the circumstances of each case and inserted in the blanks space kept for the purpose and the contractor shall abide by the program of detailed progress laid down by the Executive Engineer.
- (c) To order that the work of the contractor be measured up to take such part thereof as shall be unexecuted out of his hands, and to give it to another Contractor to complete, in which case, any expenses which may be incurred in excess of the sum which would have been paid to the original Contractor. If the whole work had been executed by him (as to the amount to which excess expenses the certificate in writing of the executive Engineer shall be final and conclusive) shall be born and paid by the original contractor and shall be deducted from any money due to by A.A.U. under the contract of otherwise or from his security deposit or proceeds of sale thereof or a sufficient part thereof.

Signature of the Contractor

Signature of the Executive Engineer

In event of any of the above course being adopted by the Executive Engineer, the contractor shall have no claim to compensation for any loss sustained by him by reason of his having purchased or procured any materials or entered in to any engagement or made any advances on account of or with a view to the execution of the work or the performance of the contract. And in case the contract shall be rescinded under the provision aforesaid. the contractor shall not be entitled to recover or be paid any sum for any work there for actually performed by him under this contract unless and until the Executive Engineer shall have certified in writing the performance of such work and the amount payable in respect there of and shall only be entitled to be paid the amount so certified.

Clause 3 (d) : If the contractor shall individual or proprietary concern and the individual or the proprietor dies, then unless the accepting Authority as satisfied that legal heirs or representatives of the individual Contractor or of proprietary concern are capable of carrying out and completed the contract the Accepted Authority shall be entitled to cancel the contract as to its uncompleted part by forfeiting, the security deposit under clause 3 (a) without A.A.U. being in any way liable to payment of any compensation to the heirs of deceased Contractor on account of cancellation of the contract. The decision of the Accepting Authority that the legal representatives of the deceased Contractor liable for damages for not carrying out the work remaining incomplete as on the date of the individual Contractor of the proprietor.

Clause-4 If the progress of any particular portion of the work is unsatisfactory, the Engineer in charge shall not with standing that the general progress of the work is satisfactory, in accordance with Clause 2, be entitled to take action under Clause 3(a), 3(b) 3(c) after the contractor 10 day notice in writing and the contractor will have no claim for compensation for any loss sustained by him owing to such action.

Clause-5 In any case in which any of powers conferred upon the Engineer - in charge by clause 3 hereof shall have become exercisable and the same shall not have been exercised, the no exercise therefore shall not constitute a waiver of any of the conditions hereof and such powers shall not withstanding be exercisable at any future date.

Clause 5-A In the event of the Engineer in charge taking action under clause 3, he may, if so desires, take possession of all or any tools, plants, machineries, materials and stores in or upon the work or the site there of or belonging to the contractor procured by him and intended to be used for the execution of the work or any part thereof by paying or allowing for the same in account at the contracture or in case of contract rates not being applicable, at such reasonable rates, as may be comparable to current market rates where as certain able of similar articles and comparable condition to be certified by the Engineer in charge, In the alternative the Engineer in charge may be notice in writing to the contractor or his clerk of the works, forman or other authorized agent require him to remove such tools, plants, machineries, materials, or stores from the premises with in a time to be specified in such notice and remove them at the contractor's expenses or shall remove them by auction or private sale at the risk and cost of contractor in all respect, and the certificate of the Engineer-in charge as to the expenses of any such removal shall be final and conclusive against the contractor.

Clause-6 Extension of time : If the contractor shall desire an extension of the time for completion of the work on the ground of his having been unavoidably hindered in its execution

Signature of the Contractor

Signature of the Executive Engineer

or any other ground. he shall apply in writing to the Engineer in charge before the expiration of the period stipulated in the tender or before the expiration of 30 days from the date on which he was hindered as foresaid or on which the cause for asking for extension occurred which ever is earlier and the Engineer-in-charge may if in his opinion believe that there are reasonable grounds for granting an extension may such extension as he thinks necessary or proper. The decision of the Executive Engineer in this matter shall be final.

Clause-7 : As soon as the work is completed, the contractor shall give a notice of such completion to the Engineer-in -charge and on receipt of such notice the Engineer in charge shall inspect the work and if he is satisfied that the work is completed in all respect then -

- (i) For all works costing upto Rs. 50 lac (amount put to tender), the final measurements shall be recorded within 45 days from the date of physical completion of the work and the final bill shall be prepared within 45 days from the date of recording final measurement. The completion certificate shall be issued within one month from the date of final measurements subject to the contractor fulfilling his obligation as provided in the contract and subject to the work being complete in all respects.
- (ii) In respect of works costing more than Rs. 50 lakhs (amount put to tender), the final measurement shall be recorded within 75 days from the date of physical completion of the work and the final bill shall be prepared within 75 days from the date of recording final measurement. The completion certificate shall be issued within two months from the date of final measurement subject to the contractor fulfilling his obligation as provided in the contract and subject to the work being complete in all respects.

When separate periods of completion have been specified for items or groups of items, the executive Engineer shall issue separate completion certificate for such items or groups of items.

No certificate of completion shall be issued nor shall be work be considered to be complete till the contractor shall have removed from the premises, on which the work has been executed all scaffoldings, sheds and surplus materials, except such as are required for rectification of defects; rubbish and all huts and sanitary arrangements required for his workmen on the site in connection with the execution of the work as shall have been erected by the Contractor for the workmen and cleared all dirt from all parts of building(s) upon or about which the work has been executed or of which he may have and possession for the purpose of the execution thereof and cleared floors, gutters and drains, cased doors and sashes, oiled locks and fastenings rebelled keys clearly and handed them over to the Engineer or use to the satisfaction of the Engineer-in-charge. If the contractor shall fail to completion of the work the Executive Engineer may, at the expense of the Contractor, fulfill such requirements dispose of the scaffolding, or any such scaffolding and rubbish etc. as he thinks fit and the contractor shall have no claim in respect of any such scaffolding of surplus materials except for any sum actually realized by the sale thereof less the cost fulfilling such requirement or more than the amount realized on such disposal as aforesaid, the contractor. shall forthwith, on demand, pay such excess, The Executive Engineer shall also have the rights to adjust the amount of excess against any amounts that may be payable to the contractor.

Signature of the Contractor

Signature of the Executive Engineer

Clause-8 : No payment shall be made for any work, estimated to cost than rupees one thousand till after the whole of the said work shall have been completed and the certificate of completion given. But in the case of works estimated to cost more than rupees one thousand, the Contractor shall on submitting a monthly bill therefore, be entitled to receive payment proportionate to the part of the work then approved and passed by the Executive Engineer, whose certificate of such approval and passing of the sum so payable shall be final and conclusive against the Contractor. All such intermediate payments shall be regarded as payment by way of advance against the final payments only and not as payments for work actually done and completed and shall not preclude the Executive Engineer from the requiring bad, unsound, imperfect, unskilled work to be removed and taken away and reconstructed or re-erected nor shall any such payment be considered as an admission of the due performance of the contract or any part thereof in any respect or the accruing of any claims, nor shall it conclude, determine or affect in any way the power of the Executive Engineer as to the final settlement and adjustment of the account or otherwise or in any other way vary or effect the contract. The final bill shall be submitted by the contractor within one month of the completion of the work, otherwise the Executive Engineer certificate of the measurement and of the total amount payable for the work shall be final and binding on all parties.

Clause-9 : The rates for items of work shall be valid only when the item concerned is accepted as having been completed fully in accordance with sanctioned specifications. In cases where the item of work are accepted as not so completed, the Executive Engineer may take payment on account of such items at such reduced rates as he may consider reasonable preparation of final or on account bill.

Clause 10 : Bill to be submitted monthly: A bill shall be submitted by the each month on or before the date fixed by the Engineer-in-charge for all works executed in the previous month and the Engineer-in-charge shall take or cause to be taken the requisite measurement for the purpose of having the same verified and the claim. So far as it is admissible, shall be adjusted if possible within ten days from the presentation of the bill. If the contractor does not submit the bill within the time fixed as aforesaid, the Engineer in charge may depute a subordinate to measure up the said work in the presence of the contractor or his duly authorized agent whose countersignature to the measurement list shall be sufficient warrant and the Engineer in charge may prepare a bill from such list which shall be binding on the contractor in all respects.

Clause 11 : The contractor shall be submit all the bills on the printed forms to be had on application at the office of the Executive Engineer - The charges to be made in the bills shall always be entered at the rates subject to the approval by the Executive Engineer in the case of items not completed/executed as per agreement or in the case of any extra work ordered in pursuance of these conditions and not mentioned or provided for in the tender, at the rate hereinafter provided for such work.

Clause 12 : If the specification of estimate of the work provided for the use of any special description of material to be supplied for the Departmental store or of it is required that the Contractor shall use certain stores to be provided by the Executive Engineer (such materials and the stores and the price to be charged therefore as hereinafter mentioned being so far as practicable for the convenience of the Contractor but not so as in any way to control the meaning or effect to this

Signature of the Contractor

Signature of the Executive Engineer

contract specified in the schedule or memorandum hereto annexed) the Contractor shall be supplied with materials and stores as may be required from time to time to be used by him for the purpose of the contract only and the value of the full quantity of material and stores so supplied shall be set off or deducted from or any sum then due, or thereafter to become due to the contractor under the contract, or otherwise A.A.U. from the security deposit, or the proceeds of sale thereof, shall, in that case be sold for the purpose. All materials supplied to the Contractor shall remain the absolute property of A.A.U. and shall on no account. Be removed from the site of the work, and shall at all time be open to inspection by the Executive Engineer in charge. Any such material, unused and in perfectly good condition at the time of completion or termination of the contract shall be returned to the departmental store if the Engineer-in-charge so requires by notice in writing given under his hand but the contractor shall not be entitled to return any such materials except with consent in writing of the Executive Engineer and he shall have no claim for compensation on account of any such materials supplied him aforesaid but remaining unused by him of for any wastage in or damage thereto, for materials provided in Schedule "A" and consumed in excess quantities. The rates provided in schedule 'A' shall be increased/decreased corresponding to the increased / decreased in the new rate payable for excess quantity as compared to the tender rates. The rate for materials provided in extra items will be the issue rates plus storage charges ruling on the date of issue of such quantity of materials.

Clause 12-A : The Contractor shall be entitled to use the material supplied by the department only to the extent of quantities of such materials required for execution of the work as per theoretical calculations. The Executive Engineer may however, on being satisfied that a large quantity of such materials is required for execution of the work, permit the contractor to use such larger quantity of the materials. Such permission shall be given in writing.

The Contractor is bound to return in good condition such materials issued in excess of the requirements so worked out or in excess of the quantities so permitted to be used by the Engineer in charge if the contractor fails to return such extra materials within a period of 15 days from the date of demand in writing or such materials being made by the Executive Engineer, he shall be charged for the excess materials at double the issue-rate for such materials specified in Schedule 'A' of the Contract Agreement.

Clause 12-B : All stores and materials such as cement, if the total consumption of which exceeds 25 tons; and steel etc. supplied to the contractor by A.A.U. shall be kept by the contractor in separate godown provided with a double lock. The key of one of the lock shall remain with the Engineer in charge or his agent at all times. No materials shall be allowed to be removed from the site of the work and any material required for the execution of the work shall be taken out form the godown only in the presence of duly authorized agent of the Executive Engineer.

Clause 13 : (1) The contractor shall execute the whole and every part of the work in the most substantial and workman like manner and both as regards materials and in other respect in strict accordance with specifications. The contractor shall also confirm exactly, fully and faithfully to the designs, drawing and instructions in writing to the work sign by the Executive Engineer to which the contractor shall be lodged in the office of the Executive Engineer to which the contractor shall be entitled to have access for the purpose of inspection at such office during office hours.

Signature of the Contractor

Signature of the Executive Engineer

Where the instructions referred to above are not contained in separate letters addressed to the contractor the same shall be recorded in the work order book. Which shall be maintained and kept of the site of the work. The Contractor shall be required to sign such entries in the work order book in taken of having noted the instructions. However, if the contractor fails to sign the work order book for any reason whatsoever the entry of the instructions in the work order book shall be open for inspection to the contractor on the site of the work during office hours.

- (2) The Contractor will be entitled to receive the certified copy of the accepted tender along with the work order free of cost and will also be entitled to receive, on request, three sets of contract and working drawings according to the progress of work, as and when needed free of cost.
- (3) The several documents forming the contract are essential parts of the contract and requirements occurring in one is binding as through occurring in all. They are intended to be mutually explanatory and complementary and to describe and provided for a complete work. In the event of any discrepancy in the several documents forming the contract or in any one document, the following order of precedence should apply;

(a) Dimension and Quantities

- (i) Drawings (ii) Schedule-B of the tender form (iii) Specification. On drawings figured dimension unless obviously incorrect will be followed in preference to scaled dimensions.

(b) Description

- (i) Schedule-B of the tender form; (ii) Drawings (iii) Specification. In the case of defective description or ambiguity, The Executive Engineer is entitled to issue further instructions directing in what manner the work is to be carried out. The contractor can not take any advantage of any apparent error or omission in drawings or specifications and the Executive Engineer shall be entitled to make corrections and interpretations as necessary to fulfill the plans and specifications.

Clause - 14.1 The Executive Engineer shall have power to make any alteration in or to the original specifications, drawings, designs and instructions that may appear to him to be necessary of advisable during the progress of the work and the contractor shall be bound to carry out the work in accordance with any instructions in this connection which may be given to him in writing signed by the Executive Engineer and such alteration shall not invalidate the contract and additional work which the contractor may be directed to do in the manner are specified as part of the work shall be carried out by the contractor on the same conditions in all respect on which he agreed to do the main work and at the contractor on the same conditions in all respect on which he agreed to do the main work and at the same rate as are specified in the tender for the main work.

14.2 Except that, when the quantity of any items exceeds the quantity as in the tender by more than 30 % The Contractor will be paid for the quantity in excess of 30% at the rate entered in the S.O.R. of the year during which the excess in quantity is first executed and for the materials consumed in excess quantity the rate for the materials to be changed would be the basic rate. Taken in account for fixing the rate for S.O.R. instead of the rate stipulated in Schedule A.

14.3 If the additional or altered work includes any class of work for which no rate is specified in this contract. Then such class of work shall be carried out.

- (i) At the rate derived from the item within the contract which is comparable to the one Involving additional or altered class of work; where there are more than one comparable

Signature of the Contractor

Signature of the Executive Engineer

items. The item of the contract which is nearest in comparison with regard to class or classes of the work involved shall be selected and the decision of the Executive Engineer as to the nearest comparable item shall be final and binding on the contractor.

- (ii) If the rate can not be derived accordance with (i) above such class of works shall be carried out at the rate entered in the Schedule of Rates of Divisional for the year in which the tender was received increased or decreased by the percentage by which the tender amount in more or less as compared to the amount arrived at the rates in the “Schedule of Rates” of the Division in the year in which the tender was received. If the Schedule or Rate of the Division for that year and for materials consumed on such item. the rate to be charged would be the basic rate taken in to account for fixing the rate in S.O.R. referred to above instead of the, rate stipulated in schedule-A.
- (iii) If it is not possible to arrive at the rate form(i) and (ii) above, such class of work shall be carried out at the rate decided by the competent authorities on the basis of detailed rate analysis after hearing the contractor before Executive Engineer.

14.4 If the additional or altered work, for which no rate is entered in “Schedule of Rates” of the Division is order to be carried out before the rate in agreed upon, than the Contactor shall within seven days of the date of receipts by him of the order to carry out the work, inform the. Executive Engineer of the rate which it is his intention to charge for such class of work and if the Executive Engineer does not agree to this rate, he shall by notice in writing, be at liberty to cancel his order to carry out such class of work thereof and arranges to carry it out in such manner as he may consider it advisable, provided, always that if the Contractor shall commence work or incur any expenditure in regard thereof the rates shall have been determined as lastly herein before mentioned, then in such cases he shall only be entitled to be paid in respect of the work carried out or expenditure incurred by him prior to the date of determination of the rate as aforesaid according to such rate or rates as shall be fixed by the Executive Engineer. In the event if the dispute. The decision of the Executive Engineer A.A.U. shall be final. Where, however the work is to be executed according to the designs, drawings and specification recommended by the contractor and accepted by the competent authority, the alteration above referred to shall be within the scope of such designs, drawings and specification appended to the tenders. The time limit for the completion of the work shall be extended in the proportion that the increase in the cost occasioned by alteration bears to the cost of original contract work, and the certificate of the Executive Engineer as to such proportion shall be final and conclusive.

14.5 For excess in item of well sinking, the rates for sinking in depth beyond the designed depth shall be as per the rate quoted by the contractor in the statement of variation. If no rates variation in sinking is quoted, the rate payable shall be the tender rate for sinking at the designed level increased by the deference in schedule or rate for sinking at designed depth and sinking at final depth.

Clause 15 : No claim to any payment or compensation or for restriction of work : If any time after the execution of the contract documents the Engineer in charge shall for any reason whatsoever require whole or part of the work, as specified in the tender, be stopped for any reason whatsoever, require the whole or part of the work, as specified in the tender, be stopped for any period or shall not require the whole or part of the work to be carried out at all or to be carried out by the contractor he shall give notice in writing of the fact to the contractor who shall thereupon

Signature of the Contractor

Signature of the Executive Engineer

suspend or stop of the work totally or partially, as the case may be. In any such case, except as provided hereunder, the contractor shall have no claim to any payment or compensation whatsoever on account of any profit or advantage, which he might have derived from the execution of the work in full but which he did not so derive in consequence of the full amount of the work not having been carried out, or an account of any loss that he may be put to on account of material or purchased or agreed to be purchased or for unemployment of labour recruited by him. He shall not have also any claim for compensation by reason of any alteration having been made in the original specification, drawings, designs and instructions which may involve any curtailment of the work as originally contemplated. Where however materials have already been purchased or agreed to be purchased by the Contractor before receipt by him of the said notice, the contractor shall be paid for such material at the rate determined by the Engineer in charge provided they are not in excess of requirements and are of approved quality and or shall be compensated for loss, if any, that he may put to, in respect of material agreed to be purchased by him, the amount of such compensation to be determined by the Engineer in charge whose decision shall be final. If the contractor suffers any loss any account of his having to pay labour charges during the period during which the stoppage of work as been ordered under this clause the contractor shall on application be entitled to such compensation of account of labour as the Engineer-In-Charge whose decision shall be final, may consider reasonable, provided the contractor shall be entitled to any compensation of account of the labour charges if, in the opinion of the Engineer in charge the labour could have been employed by the Contractor elsewhere for the whole or part of the period during which the stoppage of the work has been ordered as aforesaid.

Clause 15-A : The Contractor shall be entitled to claim any compensation from A.A.U. on account of delay by A.A.U. in the supply of materials entered in Schedule - 'A' where such delay is caused by (i) Non supply due to short allotment of quota in case material available under quota regulation (ii) Difficulties relating to the supply of railway wagons. (iii) Force majored (iv) Act of God (v) Act of the country's enemies or any other reasonable cause beyond the control of Government/University. In the case of such delay in the supply of materials A.A.U. shall grant such extension of time for the compensation of the work as shall appear to the Executive Engineer to be reasonable accordance with the circumstances of the case. The decision of the Executive Engineer as the extension of time is accepted as final by the Contractors.

Clause-16 : "Time limit for unforeseen Claims" :- The Contractor shall not be entitled to any compensation from A.A.U. on any account unless where allowed by the conditions of this contract. In such cases. The contractor shall have to submit a claim in writing to the Executive Engineer within one month of the cause of such claim occurring.

Clause-17 : " Action and compensation in case of Bad work" :- If at any time before the expiry of defects Liability period as detailed in Clause 17-A, it shall appear to the Executive Engineer or his subordinate in charge of the work, that any work has been executed with unsound, Imperfect or unskilled workmanship or with materials or article provided by him for the execution of work are unsound, or of a quality inferior to that contracted for or are other wise not in accordance with the contract, it shall be lawful for the Engineer in charge to intimate this fact in writing to the contractor and then not with standing the fact that the work material or articles complained of may been passed, certified and, paid for, the contractor shall be bound for there with to rectify, or remove and reconstruct, the work so specified in whole or in a part as the case may require, or if so require, shall remove the materials or articles so specified and provided other proper and suitable material

Signature of the Contractor

Signature of the Executive Engineer

and articles at his own charges and cost and in the event of his failing to do so with in a period to be specified by the Engineer in charge in the written intimation aforesaid, the contractor shall be liable to pay compensation at the rate of one percent of the amount of the estimate of the certification for every day not exceeding ten days during which the failure so continues, and in the event of any such failure as aforesaid continuing beyond ten days. The Executive Engineer may rectify or remove or re-execute the work or remove and replace the materials complained of as the case may be at the risk and expense in all respect of the Contractor. Should the Executive Engineer consider that any such inferior work or material as described above may be accepted or made use of, it shall be within his desecration to accept the same at such reduced rates as he may fix therefore. However, the contractor shall be responsible for normal maintenance of the work till final bill for the work is prepared by the Departmental officer.

Clause 17 A : The Contractor shall be responsible to defect make good and remedy at his own expense any defect which may develop or may be noticed before the period mentioned hereunder from the certified date of completion. The Executive Engineer shall give the contractor a notice in writing about the defects and the Contractor shall make good the same within 15 days of receipt of the notice, In the case of failure of on the part of the Contractor the Exe. Engg. shall be entitled to appropriate the whole or any part of the amount of the security deposit towards the expenses. If any incurred by him in certification, removal or re-execution, The Defects Liability period shall be 12 (Twelve) months from the date of completion of the work for all works.

The total Security Deposit (5.0% of the amount put to tenders may be released after completion of defect liability period by the appropriate authority.

Clause 18- Work to be open for inspection contractor or responsible agent to be present:

All works under or in course of execution or executed in pursuance of the contract shall at all times be, open to the inspection and supervision of the Executive Engineer in charge and his subordinate and the contractor shall at all times during the usual working hours and at all other times at which reasonable notice of the intimation of the Engineer in charge or his subordinate to visit the works shall have been given to the contractor, either him self be present to receive order and instructions or have responsible agent duly accredited in writing present for that purpose, orders given to the Contractor's duly authorized agent shall be considered to have the same force and effect as if they had been given to the Contractor himself.

18 (i) Employment of qualified site Engineer by the Contractor: The Contractor shall employ fulltime technically qualified staff during the Execution of work under. When the cost of work to be executed is more then Rs. 50 lakhs.

1. One graduate Engineer
2. One qualified Diploma holder Engineer when the cost of work to be executed is more than Rs. 20 lakhs but less than Rs. 50 lacs. The Engineer so employed for the A.A.U. work must have sufficient experience to handle the work independently. Such an Engineer shall have to stay at the site of work and he shall not be entrusted with any other duty except of this work.

In case the Contractor or a partner of the Contractor firm is Civil graduate Engineer, employment of a separate Engineer will not be necessary provided that the engineer partner him self attends the execution of the work on sites.

Signature of the Contractor

Signature of the Executive Engineer

Clause-19 : Notice to be given before work is covered up : The contractor shall give not less than five day's notice in writing to the Executive Engineer or his subordinate in charge of the work before covering up or otherwise placing beyond the reach of measurement any work, in order that the same may be measured and correct dimensions thereof taken before the same is so covered up or placed beyond the reach or measurement any work without the consent in writing of the Executive Engineer or his subordinate in charge of the work and if any work shall be covered up or placed beyond the reach or measurement without such notice having been given or consent obtained the same shall be uncovered at the Contractor's expense and in default thereof, no payment or allowance shall be for such work or for the materials with which the same was executed.

Clause 20 : If the contractor or his workmen, or servants shall break, deface injure or destroy any part of the building or work in question in/on which they may be working or any building, road fence, enclosure or grass-land or cultivated ground contiguous to the premises on which the work from any cause whatever before completion of the work or before the completion of the maintenance period which ever is later or any damage occurred/caused due to normal Flood or rain or if any imperfections become apparent in it within twelve months from the grant of the certificate of completion, final or otherwise by the Executive Engineer the Contractor shall make good the same at own expenses or in default the expenses (of which the certificate of the Executive Engineer shall be final) from any sums that may thereafter become due to the Contractor or from his security deposit or the proceeds of sale thereof or a sufficient portion thereof.

Clause 20-A : However, neither party shall be to liable to the other any loss or damage occasioned/ caused by or arising out of acts of gods any particular, “ for precedence Floods” volcanic eruption, earth quake or other convulsion of nature, and other acts. Such as, but not restricted to invasion, the act of foreign countries, hospitalities or war like operations before or after declaration of rebellion military or unsupported power which prevent performance of the Contract and which could not have been foreseen or avoided by a prudent person.

NOTE: “Unprecedented flood” means the flood crossing the high Flood level of the past year(s) which is on the available record.

Clause 21-The Contractor shall supply at his own cost all material (except such special materials if any as may, in accordance with the contract to be supplied from the A.A.U. stores), plant, tools, appliances, implements, ladders, cordage, tackle, scaffolding and any temporary work which may be required for the proper execution of the work weather in the original, altered or substitute from and weather included in the specifications, or other documents forming part of the contract of referred to in these conditions or not and which may be necessary for the purpose of satisfying or complying with requirements of the Engineer-in-charge as to any matter or to which under this conditions he is entitled to be satisfied or which he is entitled to require together with carriage therefore to and form the work. The contractor shall also supply without charge the requisite number of persons with the means and materials to the necessary for the purpose of setting out works and counting. Weighing and assisting in the measurement or examination at any time and form time to time, of the work or the materials. Failing this the same may be provided by the Executive Eng. Eng. in charge at the expense of the contractor expenses may be deducted from any money due to the contractor under the contract or from his security deposit or proceeds of sale thereof or of a sufficient portion thereof. The Contractor shall provided all necessary

Signature of the Contractor
