About Event

Dr. Chaitanya Joshi, the Director of the Gujarat Biotechnology Research Centre (GBRC), DST, GoG, delivered an insightful expert lecture on the topic of Universal Holistic Health. His lecture was a part of the broader theme of "Disruptive Science for Innovative and Sustainable Development." Dr. Joshi specifically focused on the sub-theme of Universal Holistic Health and shared valuable insights with the students in attendance.

During his lecture, Dr. Chaitanya actively encouraged the students from various universities to actively participate by openly sharing their doubts, queries, and questions. His interactive approach created a conducive environment for engaging discussions and facilitated the exchange of knowledge among the students. This approach fostered a deeper understanding of the subject matter and promoted a collaborative learning experience.

Dr. Chaitanya Joshi, the Director of the Gujarat Biotechnology Research Centre (GBRC), DST, GoG, delved into the significance of the shloka (verse) of shanti path that is sung during holistic festivals for peace. The shloka emphasizes the importance of harmony and peace in various aspects of existence. Dr. Joshi elucidated on the verse: "द्यौः शान्तिरन्तरिक्षं

शान्तिः। पृथिवी शान्तिरापः शान्तिरोषधयः शान्तिः। वनस्पतयः शान्तिर्विश्वदेवाः शान्तिर्ब्रह्म शान्तिः। सर्व
शान्तिः शान्तिरेव शान्तिः सा मा शान्तिरेधि ॥ ॐ शान्तिः शान्तिः शान्तिः ॥".

He explained how each element mentioned in the shloka, such as water, the universe, Brahma (the ultimate reality), animals, plants, and all life and products on Earth, holds significance in the context of universal health. Dr. Joshi further elaborated on the percentage-wise prevalence of diseases in animals, humans, and plants, providing insights into the health issues faced by different organisms. He also discussed specific viruses and bacteria, providing information on their impact on health.
