

One Day Visit Organized by
Industry Institute Interaction Cell -IIIC
CAET, AAU, Godhra

Event Organized

The 18th Heads of State and Government Summit of the Group of 20 (G20), under the Indian Presidency, is scheduled to take place in New Delhi, India, during September 2023. The summit will revolve around the theme of 'One Earth, One Family, One Future'. As part of the G20 proceedings, the National Innovation Foundation (NIF), India, and the Indian National Science Academy (INSA), in association with the Science 20 (S20) engagement group, have arranged a series of expert talks and round the table discussion with students from various institutes. The expert talk and discussion with Mr. Surendra Patel, be held at the Ahmedabad Management Association (AMA) located on Dr. Vikram Sarabhai Marg, University Area, Ahmedabad, on the 26th of June 2023, from 04:00 pm to 04:30 pm. To enrich the event as the audience, students from CAET, AAU, Godhra, have been invited to participate. Under the guidance of Er. Chirag Jadav, Chairman of the Industry Institute Interaction Cell and Assistant Professor in Mechanical Engineering in the Basic Engineering & Applied Sciences Department, a visit has been organized for the students on the 26th of June 2023.

About Event

It's fascinating to hear about Mr. Surendra Patel's expert talk on the theme of "Disruptive Science for Innovative and Sustainable Development," with a specific focus on Science for Society, Culture & Heritage. His emphasis on sustainable development and the role of science in addressing societal and environmental challenges is highly relevant in today's world.

As the founder of Vishalla, Mr. Surendra Patel has pioneered a unique concept in the restaurant industry since 1978. His vision was not just to serve food but to provide guests with a holistic experience that takes them back to their roots in a rustic and homely environment. This approach to dining goes beyond mere culinary delights and aims to create a connection with culture and heritage.

As an architect and interior designer, Mr. Surendra Patel likely brings a keen eye for detail and a deep understanding of aesthetics to his work. His design for Vishalla reflects his commitment to creating spaces that blend traditional elements with modern sensibilities.

In his expert talk, Mr. Surendra Patel likely shared his views on sustainable practices, specifically emphasizing the use of old utensils. By utilizing old utensils, which are likely

more environmentally friendly compared to their modern counterparts, he promotes a greener environment and encourages a more sustainable way of living.

The discussion of old utensils and their potential benefits for the environment aligns with the broader theme of sustainable development. By advocating for the use of traditional and eco-friendly alternatives, Mr. Surendra Patel likely highlights the importance of preserving cultural heritage while also contributing to a greener and more sustainable future.

Overall, Mr. Surendra Patel's expert talk on disruptive science for innovative and sustainable development, with a focus on science for society, culture, and heritage, showcases his commitment to creating unique experiences and promoting sustainability. Through his vision for Vishalla and his emphasis on utilizing old utensils, he offers insights into how traditional practices and mindful choices can contribute to a more sustainable environment and a deeper connection with culture and heritage.

Key Role of Officer, Faculty and Staff

The visit was impeccably organized and flawlessly executed by Er. Chirag Jadav, Chairman of the Industry Institute Interaction Cell, and Assistant Professor. Dr. Mukesh Tiwari, Head of the Soil and Water Conservation Department, and Er. Suryaprakash Suryavansi, SRA of the IDE Department, also contributed their unwavering commitment to ensuring the smooth functioning of all activities throughout the day. A special mention goes to Er. Kapil Mandloi, Head of the BEAS Department, whose steadfast support was invaluable. The success and productivity of the event were further enhanced by Dr. R. Subbaiah, the Principal and Dean of CAET, AAU, Godhra.
