**College of Food Processing Technology and Bio-Energy
Anand Agricultural University, Anand, Gujarat, India**

Dr. N.C. Patel
Vice - Chancellor

ANAND AGRICULTURAL UNIVERSITY
Anand – 388 110, Gujarat, India.

MESSAGE

I am glad to learn that the College of Food Processing Technology & Bio Energy, Anand Agricultural University is bringing out 'Placement Brochure-2015' for the final year B. Tech. (FPT) and M. Tech. (FPT) students.

Better utilization and value addition of agricultural produce for enhancement of income of farmers remains the biggest challenge of our nation. Minimizing wastage at all stages in the food processing chain by the development of infrastructure and induction of modern technology for storage, transportation and processing of agro-food produce is of tremendous importance for the food processing industries. To overcome these challenges, it requires food processing technocrats with sound scientific knowledge and technical skills. With the innovative course curriculum and finest laboratory and pilot plant facilities, the College of Food Processing Technology & Bio Energy is providing competent food processing graduates and post graduates, who are serving various industries of repute. I strongly believe that the current batch of students will live up to the expectations of the industry and prove their capabilities.

I take this opportunity to extend my heartiest welcome to all the prospective employers and express my warmest wishes to the final year food processing technology students for their bright future.

N. Patel

(Dr. N. C. Patel)

Dr. D. C. Joshi
Principal & Dean
College of FPT&BE

From the Desk of the Principal

Indian food processing industry is widely recognized as a 'sunrise industry' having huge potential for uplifting country's economy, creation of large scale processed food manufacturing and the resultant generation of employment and export earnings. As availability of competent skillful food technocrats is the prerequisite for the continuing growth and modernization of food processing sector, the College of Food Processing Technology & Bio-Energy is established exclusively for imparting education in the area of food processing technology. The college is offering 4-years B.Tech, 2-years M.Tech and Ph.D programmes in the area of food processing technology.

At our institute, we are striving hard to groom a batch of food processing professionals who have it in themselves to survive as well as flourish in today's competitive world with confidence and zeal to grow. Expert faculty team, modern curriculum and conducive learning environment coupled with state-of-the-art laboratory & pilot plant facilities are helping the students in honing up their knowledge and skills to be the real asset for the corporate. I heartily wish them a bright and prosperous career ahead.

At the outset, I gratefully acknowledge the warm response, encouraging support and interest shown by reputed organizations in recruiting our students in past years. I cordially invite industries to participate earnestly in this year's placement programme and augment our efforts to provide the best human resources matching with the industry requirements.

(D C Joshi)

Students' profile – M. Tech (FPT)	32

The manufacturing of food products of consistent quality and nutritional value at affordable cost is essential to the success of the food industry today. The efficient use of resources is the growing concern for all involved in food production, processing, distribution and retailing. The food industries in the country need modernization to face the challenges of the globalization especially with respect to the economic production of superior quality products. This necessitates special attention towards availability of qualified technical manpower, effective technologies and efficient machinery. Considering the huge demand of the specialized human resource for the fast growing sectors of food industry, the Anand Agricultural University has established a full-fledged College of Food Processing Technology & Bio-Energy. College offers B. Tech, M. Tech & Ph. D programmes in the discipline of Food Processing Technology.

Vision

Providing excellent food processing professionals to the industry.

Mission

The primary mission of the college is to produce highly skilled, competent and motivated technical manpower for food processing and allied industries. The technocrats so produced will also be competent to handle all the aspects of research institutes, quality testing laboratories and other related agencies. Also, the college is concerned with the exploitation of novel techniques and technologies to maximize the use of food resources.

Mandates

- Education and training in the field of food processing technology and bio-energy so as to produce highly skilled and competent manpower for food processing industries and other agencies.
- Basic, applied and adoptive research and development in the area of agro-processing, food technology, food engineering, food quality assurance, bio-energy and other relevant subjects.
- Transfer of technologies and consultancy in different aspects related to food processing industry.

Departments & faculties

Faculty Members

Principal and Dean

D. C. Joshi, Ph D, IIT, Kharagpur

Department of Food Processing Technology

H. Pandey, M Tech, Asso. Professor & Head
Amees Ravani, M Tech, Assistant Professor
H. P. Sharma, M Tech, Assistant Professor
G. P. Tagalpallewar, M Tech, Asstt. Professor
R. B. Modi, M Tech, Assistant Professor

Department of Food Engineering

A. K. Sharma, Ph D, Asso. Professor & Head
N. V. Shah, M E, Assistant Professor
M. A. Makwana, M Tech, Assistant Professor
A. N. Nakiya, M Tech, Assistant Professor
T. H. Bhatt, M Tech, Assistant Professor
A. Nema, Ph D, Assistant Professor

Department of Food Quality Assurance

R. V. Prasad, Ph D, Professor & Head
H. G. Bhatt, Ph D, Associate Professor
B. H. Joshi, Ph D, Associate Professor
Namrata Sutar, Ph D, Assistant Professor
K. S. Damle, M Sc, Assistant Professor
J. K. Momin, M Tech, Assistant Professor
R. M. Dhingani, M Sc, Assistant Professor
A. M. Patel, M Tech, Assistant Professor

Department of Post Harvest Engineering & Technology

R. F. Sutar, Ph D, Professor & Head
S. H. Akbari, Ph D, Associate Professor
V. B. Bhalodiya, M Tech, Assistant Professor
R. R. Gajera, Ph D, Assistant Professor
R. Gupta, M Tech, Assistant Professor

Department of Food Business Management

H. G. Bhatt, Ph D, Associate Professor & Head
S. Dutta, Ph D, Associate Professor
P. S. Parsania, M Sc, Assistant Professor
S. K. Meher, Ph D, Assistant Professor
N. M. Chavda, M Phil, Assistant Professor
D. B. Patel, MBA, Assistant Professor

Department of Bio Energy

S. S. Kapdi, Ph D, Professor & Head
K. V. Vala, M Tech, Assistant Professor

Laboratories & Pilot Plant Facilities

Laboratories

The college has well equipped and state-of-the-art laboratories which include:

- Primary processing lab
- Grain milling lab
- Storage engineering lab
- Engineering properties lab
- Food processing technology lab
- Food product development lab
- Dairy products lab
- Packaging technology lab
- Sensory lab
- Food rheology lab
- Advance food technology lab
- Animal products lab
- Food chemistry lab
- Food microbiology lab
- Food biotechnology lab
- Food quality assurance lab
- Food testing lab
- Mechanical engineering lab (workshop)
- Fluid mechanics & material lab
- Electrical engineering lab
- Electronics & process control lab
- Civil engineering lab
- Heat & mass transfer lab
- Food irradiation research lab
- Advance food engineering lab
- Biochemical conversion lab
- Biomass gasification lab
- Solar & wind energy lab
- Environment engineering lab
- Computer Lab
- Language Lab

Besides, a special state-of-the-art Food Quality Testing Laboratory designed for NABL accreditation established by Ministry of Food Processing Industries, Government of India has all the sophisticated high-end analytical facilities of international standard.

Pilot Plants

Various pilot scale processing lines have been installed in the college for hands on experience and in-plant exposure to the students. The pilot plants are also used to provide training to food industry personnel and unemployed youth. The pilot plant facility is also utilized for testing of new technologies and test manufacturing of new food products. The pilot plants available are :

Experiential learning unit consisting of:

- Primary handling of fresh fruits & vegetables
- Fruits & vegetables canning line
- Bakery & snacks processing line
- Aseptic processing & packaging line
- Individual Quick Freezing (IQF) line
- Dehydration lines (spray drying, vacuum drying, drum drying, tray drying, falling film evaporator & vacuum evaporator)
- Experimental pulse mill
- Experimental biodiesel plant
- Bio energy park

Industry partners for training & placement

Course curriculum – M. Tech (FPT)

Major courses

Post Harvest Technology of Agro-produce
Advanced Food Process Technology
Technology for RTE/RTC Food Products
Advance Lipid Technology
Fermented Food Products Technology
Advanced Food Engineering
Advanced Protein Technology
Operation Research and MIS
Biotechnology in Food Processing
Food Additives and Preservatives

In – Plant Training
Special Problem
Seminar

Minor courses

Non-conventional Sources of Energy
Biomass Energy Systems & Management
Bio-environmental Engineering

Compulsory courses

Library & Information Services
Technical Writing & Communication skills
Intellectual Property & its Management in
Agri. (e-course)
Basic Concepts in Laboratory Techniques
Agril. Research, Research Ethics & Rural Development
Programme (e-course)
Disaster Management (e-course)

Supporting courses

Experimental Design
Food Chemistry & Analysis

Thesis

Research Project

Course curriculum – B. Tech (FPT)

Course curriculum – B. Tech (FPT)

Food Processing Technology

Food Processing Technology - I
Food Processing Technology – II
Processing Technology of Food Grains
Processing Technology of Fruits & Vegetables
Processing Technology of Milk & Milk Products
Processing Technology of Meat, Fish & Poultry
Processing Technology of Spices & Plantation Crops
Design & Formulation of Foods
Food Packaging Technology & Equipment
Bakery & Confectionary Products (Elc.-I)
Functional Foods & Nutraceuticals (Elc.-II)

Food Quality Assurance

Food Chemistry
Food Microbiology
Food Biochemistry & Human Nutrition
Food Plant Sanitation
Food Regulations & Quality Assurance

Food Engineering

Thermodynamics
Fluid Mechanics
Food Process Engineering - I
Food Process Engineering - II
Material Science & Engineering
Food Refrigeration & Air conditioning
Process Equipment Design
Bio Process Engineering
Food Plant Utilities & Services
Process Control in Food Industry
Food Plant Design & Layout
IT Applications in Food Industry
Dairy Engineering (Elc.-III)

Post Harvest Engineering

Engineering Properties of Biological Materials
Post Harvest Engineering
Storage Structures & Environment Control

Bio Energy

Bio energy

Core Engineering

Basic Mechanical Engineering
Basic Electrical Engineering
Basic Civil Engineering
Basic Electronics & Instrumentation Engineering
Computer Programming & Data Structures
Engineering Drawing & Graphics

Food Business Management

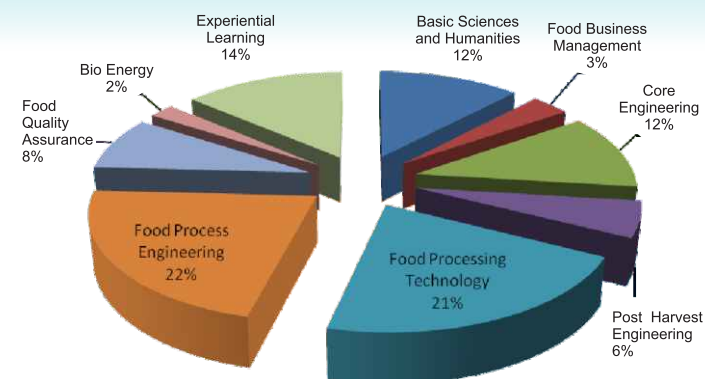

Project Management & Entrepreneurship
Development
Marketing Management & International Trade

Basic Sciences & Humanities

Engineering Mathematics - I
Engineering Mathematics – II
General Chemistry
General Microbiology
Crop Production Technology
Language & Communication Skills
Environment Science
Statistics & Optimization
