

World Environment Day Celebration cum Khedut Shibir organized by ARS, Sansoli

(5th June, 2017)

On 5th June 2017, World Environment Day Celebration cum Khedut Shibir was organized by Agricultural Research Station, Sansoli as a part of the plan scheme “Strengthening of Farm Technology Training Centre” at Vanthavadi village of Mahemdavad taluka. Total 49 farmers of said village enthusiastically participated in the programme. The main aim of this programme was to address the farmers about huge environmental issues like wastage and losses of food, deforestation, global warming etc. and role of farmers in enhancing the safety of environment through sustainable agriculture.

Prof. M. B. Zala (Assistant Research Scientist, ARS, Sansoli) and Prof. S. A. Sipai (Assistant Extension Educationist, ARS, Sansoli) attended the programme. Lecture on “Impact of Climate Change on Agriculture and Integrated Pest Management” given by Prof. M. B. Zala. Prof S. A. Sipai delivered talk on “Importance of World Environment Day concerned to agriculture and human health”. Farming related issues of farmers were discussed and solved out by the scientists of the centre.

“God has cared for these trees, saved them from drought, disease, avalanches and a thousand tempests and floods. But he cannot save them from fools”. – John Muir
