About Centre for Agricultural Market Intelligence, NAHEP- CAAST:

Anand Agricultural University has been awarded an ICAR- World bank funded project to establish Centre for Agricultural Market Intelligence. The major objectives of this project include price forecasting and behavior, export competitiveness, evaluation of e-NAM, market institutions and capacity building of faculty, students, farmers and other stakeholders. Experts from country's premium institutes including Institute of Rural Management (IRMA), Indian Space Research Organization (ISRO), National Cooperative Dairy Federation of India (NCDFI) and Western Sydney University, Australia are associated with the project. Centre for Advanced Agricultural Science and Technology (CAAST) is a PG students centric subcomponent of the ICAR-World Bank sponsored National Agricultural Higher Education Project (NAHEP) granted to AAU, Anand to provide a platform for strengthening educational and research activities of post graduate students as well as faculties.

About the Certificate Course

Embark on an enlightening journey with a five-days Certificate course designed to provide participants with a comprehensive understanding of the principles, practices, and policies that underpin agricultural insurance. Whether you are a student; eager to broaden your horizons or a faculty member seeking to enhance your expertise, this course is designed to empower the participants with the knowledge and skills required to navigate the complex landscape of agriculture insurance in India.

Facilitated by the Ministry of Agriculture and Farmers Welfare (Government of India), the driving force behind the world's largest crop insurance program, this course offers unparalleled expertise and resources. It covers an in-depth exploration of agricultural risk assessment, encompassing factors such as weather, pests, diseases, and market fluctuations. Learn how to identify and meticulously analyze the multifaceted risks faced by farmers and agricultural businesses, equipping yourself with the tools to be a proactive guardian of their livelihoods.

As we experiencing frequent climate change events, agricultural risk management is inevitable. We invite you to be a part of this educational initiative that equips you with the knowledge and skills to navigate the complex landscape of agriculture insurance sector in India. Join us in safeguarding the future of large farming community in India.
