Retired ICAR Employees' Association (RICAREA)
210, Revathi Towers, Maruthinagar, Kothapet, Hyderabad 500060 Telangana

Dear Researcher,

As you are well aware, the Retired ICAR Employees' Association (RICAREA) consisting of over 330 members is dedicated to the cause of advancement of Indian agriculture and well-being of Indian farming community. RICAREA family has eminent agricultural scientists from all branches of Indian agriculture who guide the activities of the organization. RICAREA have also instituted the prestigious biannual M.S. Swaminathan Award, which is awarded to outstanding Indian scientists in recognition of their contributions to the cause of Indian agriculture.

It gives me pleasure to inform you that the Executive Committee of RICAREA has proposed to conduct a National Seminar on Integrated Farming Systems for Sustainable Agriculture and Enhancement of Rural Livelihoods in Hyderabad at the National Academy of Agricultural Research Management (NAARM) in association with the Indian Council of Agricultural Research and the Agricultural Universities on December 5-6, 2015. The topic has been chosen in view of the current scenario. The Expert Committee constituted in this context has suggested the following Agenda for the Seminar.

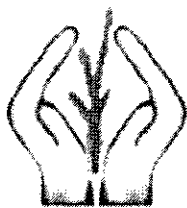

1. Inaugural Session: Key note Address by Dr. S. Ayyappan, Director-General ICAR & Secretary, DARE, Government of India to outline and review the scope and potential of the farming systems approach in the back-drop of the Indian agricultural scenario.
2. Technical Session 1: Invited Experts to present crystallized information of research developments in the following area of farming systems: (a) Crop based systems, (b) Horticulture and agro-forestry based systems, (c) Animal production and Dairy based systems, (d) Fisheries based Systems and (e) Product development in the rural scenario
3. Technical Session 2: This session consists of presentation of Specific Case Studies that would bring out the success of the farming systems leading to remunerative agriculture.
4. Plenary Session: Review of the models and practical recommendations

There shall also be a simultaneous **Poster Session** exhibiting summaries on the implementable results of investigations on sustainable farming systems. RICAREA invites all researchers across the country engaged in farming systems research to present a poster encompassing the factual and implementable results backed up by field data that would guide farmers to obtain stable income. All those who wish to present a poster paper need to register with a registration fee of Rs.1000/- in the form of D.D. payable to Retired ICAR Employees Association at Hyderabad.

With very Best Regards,

Sincerely Yours,

M.V.R. PRASAD.
President, RICAREA

NATIONAL SEMINAR INTEGRATED FARMING SYSTEMS FOR SUSTAINABLE AGRICULTURE AND ENHANCEMENT OF RURAL LIVELIHOODS DECEMBER 5-6, 2015

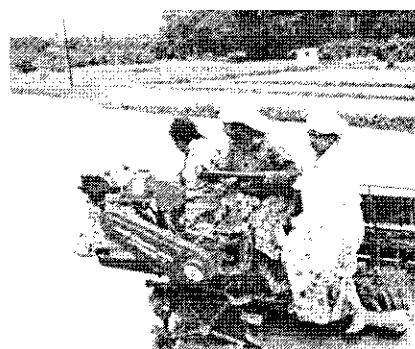

create, study and refine the farming system models in all the agro climatic regions, which has been carried out by various organizations both public and private to certain extent. The challenge before us is to transfer knowledge and skill acquired in cropping systems

research to farmers on a large scale. Such an action will improve the standard of living of small and marginal households. The results of farming system research indicate clearly that up to 70% of nutrient requirement can be met within the farm itself through recycling and integrating components.

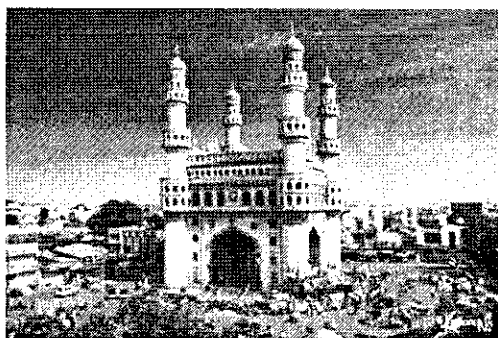

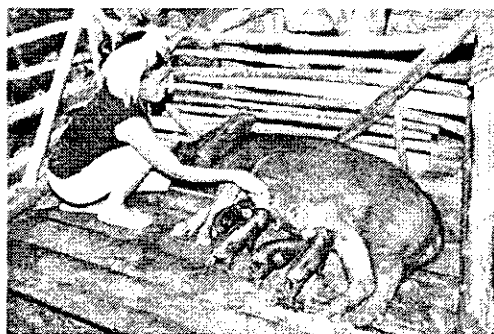

Farming Systems consisting of diverse components of biological systems are very site specific. To make climate resilient profitable multi-enterprise farming systems, we need to optimize and combine the use of land, water, human, animal and solar energy resources. The first step is to characterize,

Farming system can be made self-sustainable if all the input and energy requirements are obtained within the boundaries of farm. This is a highly location specific task but it will also ensure household nutritional security. Such efforts may take time and resource to yield benefits, but

once created, the long term goal of the nation to reduce poverty, unemployment and malnutrition can be achieved. Capacity building for the all the stakeholders such as farmers, developments departments, scientists and all those who are related in farming systems domain is important to develop quality manpower. The National Seminar aims to assess the available knowledge from all sources including the successful case studies of farming systems under diverse agro-ecologies. This effort will enable us to identify practices to increase farm profitability for wider adoption by farmers.

Venue

RICAREA c/o Seminar Hall, ICAR-National Academy of Agricultural Research Management (NAARAM), Rajendranagar, Hyderabad 500030

Agenda for the National Seminar

December 5, 2015 Saturday 1000 to 1700

- Inaugural Key Note Address: Dr. S. Ayyappan, Director-General ICAR & Secretary to the Govt. of India DARE.
- Technical Session 1: Invited oral presentations on integrated farming systems: (a) Crop based systems, (b) Horticulture and agro-forestry based systems, (c) Animal production and Dairy based systems, (d) Fisheries based Systems and (e) Product development in the rural scenario.
- Technical Session 2: This session consists of presentation of Specific Case Studies that would bring out the success of the farming systems leading to remunerative agriculture.

December 6, 2015 Sunday 0900 to 1230

- Plenary Session: Review of the models and identify practical recommendations

Call for presentation of research work on farming systems

Abstract submission by email to ricarea@gmail.com is strongly encouraged. Please contact the Secretariat (ricarea@gmail.com) if you do not receive confirmation on the acceptance of the abstract. Registration and hospitality will be provided free of cost to all the lead contributors of accepted abstracts. Each accepted abstract is to be presented as a poster.

Registration

Participants are required to register themselves by paying a registration fees of **Rs. 1000/=** which can be remitted by Demand Draft / Cheque in favour of Retired ICAR Employees Association, Hyderabad before November 05, 2015.

Boarding for participants

Boarding facilities arranged at NAARM, Rajendranagar, Hyderabad for the participants from the evening of December 04, 2015 till the forenoon of December 06, 2015.
