Subject: DBT Sponsored National Workshop cum Hands on Training on "Tools & Techniques of Molecular Breeding for Crop Improvement"

Sir,

It gives me immense pleasure to inform you that this Department is organizing an DBT sponsored 7 days National Workshop cum Hands on Training on "Tools and Techniques of Molecular Breeding for Crop Improvement" w.e.f. 26th October to 1st November, 2015. The main objective of this workshop is to acquaint the participants with the latest scientific and technological advances and expose them to current skills and training on the subject.

You are requested kindly to nominate one or two interested scientists/teachers/faculty currently engaged in Genetics and Plant Breeding/ Genetics/ Plant Biotechnology/ Seed Science/ Plant

Physiology and other relevant disciplines working not below the rank of Assistant Professor/ Assistant Research Scientist from your Institution to attend the course. You are also requested kindly to give a wide publicity to this course amongst the faculty members at the main campus/ out-stations.

The information brochure is hereby attached and application form of the participants may be forwarded on the prescribed form so as to reach on or before September 25, 2015.

Thanking you.

Yours' sincerely

(M.P.Patel)

Weather in Banaskantha

Sardarkrushinagar during the month of October is generally pleasant with cool night.

How to reach SDAU :

Sardarkrushinagar (Dantiwada) is about 28 Km from palanpur railway station, 175 Km from Ahmedabad. It is well connected through Delhi. From palanpur railway station (kirti stambh), participants can avail university bus facility from 7.00 hrs to 22.00 hrs to reach University Guest House, Sardarkrushinagar. Distt. Banaskantha, Pin-385506, Gujarat.

Important dates:

Last date for receiving application: 25/09/2015

Intimation of selection: 30/09/2015

Address for correspondence:

Course Director

Dr. M. P. Patel, Head of Department,
Department of Genetics & Plant Breeding
C. P. College of Agriculture, Sardarkrushinagar
Dantiwada Agricultural University,
Sardarkrushinagar-385506.

"Tools & Techniques of Molecular Breeding for Crop Improvement"

26th Oct. to 1st Nov. 2015

Course Director
Dr. M. P. Patel

Department of Genetics & Plant Breeding
C. P. College of Agriculture
Sardarkrushinagar Dantiwada Agricultural University
Sardarkrushinagar-385506. Distt: Banaskantha,
Gujarat, India

Background

Crop Improvement programme still running based on conventional breeding techniques. These techniques are time taking and difficult to perform with polygenic character especially where phenotyping is unmanageable. However by the implementation of molecular techniques, crop improvement work can be accelerated and conventional breeding problems can be overcome with high precision. To date, many of molecular markers namely RFLP, AFLP, SSRs, CAPS, SNP etc. have been discovered and used for many of the purposes like diversity study, marker assisted selection, QTLs identification, construction of linkage map, gene tagging, disease diagnosis, seed purity testing etc. To introduce these advanced techniques to breeders, present workshop proposal was submitted.

About the workshop:

There will be a series of lectures and hands-on practical sessions on various aspects such as molecular markers, gene mapping/tagging, marker assisted selection and biotic and abiotic stress management in term of molecular techniques. Addition to SDAU faculty, guest faculty from IARI, NIPGR, DBT and other parts of the country to deliver lectures on specific area of their specialization will be invited. An educational tour to demonstrate universities research activities

carrying out in and out side research stations will also be organised.

Date and Venue

The workshop will be organised for 7 days from 26th Oct. to 1st Nov., 2015 in the Department of Genetics and Plant Breeding, C. P. College of Agriculture, Sardarkrushinagar Dantiwada Agricultural University, Sardarkrushinagar-385506. Distt: Banaskantha, Gujarat, India.

Eligibility:

Participants are invited from SAUs/ICAR Institutes/ DBT-institutes/ National-Institutes/ Central Agricultural Universities. The participants should possess M. Sc. / Ph.D. Degree in Genetics & Plant Breeding/ Genetics/ Plant Biotechnology/Seed Science/ Plant Physiology or related disciplines and presently working not below the rank of Assistant Professor/Assistant Research Scientist.

Registration:

The applicant should pay non-refundable registration fee of Rs. 50/- in the form of a Demand draft or Indian Postal order in favour of "Course Director, workshop" payable at Sardarkrushinagar which must be sent along with the application. After filling the application form along with details of Demand draft/postal order and take a print out of

application and get it approved by the competent authority of organisation. Send the scanned copy of the application through mail and send a hard copy to the Course Director of the workshop. If required, advance copy of application can be sent to Course Director. The selected candidates will be informed by e-mail. Once the candidates are intimated about their selection, they need to confirm their acceptance by the last date.

Traveling allowance and accommodation

Travel fare to and fro for journey will be provided. Reimbursement of expenditure will be limited to AC/II Tier/AC bus by the shortest route for attending the workshop. Travel by air is not permissible. Photocopy of train/bus ticket should be produced at the time of reimbursement. For out station participants, rent-free accommodation will be provided in university premises. Wholesome meals and refreshments will be as per the normal rules of training course. Local participants will be provided lunch and inter-session tea only.
