Dear Dr. Kathiria,

The Ministry of Environment & Forests (MoEF) is implementing "Phase II Capacity Building Project on Biosafety" with support from UNEP/GEF to strengthen implementation of the Cartagena Protocol on Biosafety in India.

One of the activities proposed under the project is to prepare a database of GM plants under various stages of developments or in pipeline to be taken up in near future in next ten years. This exercise will assist in development of guidelines, relevant protocols etc. for safety assessment and facilitate preparedness of the regulatory system to deal with newer GE plants.

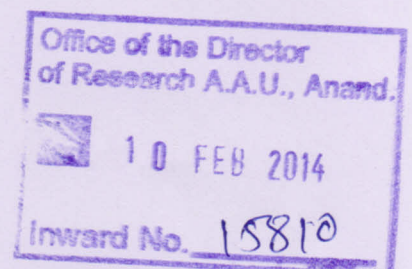

In view of your active engagement in this area, we request you to provide information about GM plants presently under research and in pipeline. We also request you to circulate this information to all concerned scientists or Principal Investigators in your organization for filling the questionnaire.

To proceed through this survey, simply click on the link below, or cut and paste the entire URL into your browser to access the survey: <https://www.surveymonkey.com/s/MOEF2014>.

It will take you approximately 10 minutes to complete the survey and your input will be kept strictly confidential
