

## **Educational Visit of Polytechnic Agricultural Engineering Students from AAU, Dahod at SPREI on 28/02/2024**

The Polytechnic Agricultural Engineering, Anand Agricultural University, Dahod, embarked on an educational visit to Sardar Patel Agricultural Educational Museum on 11.00 am followed by students visited to SPREI (Sardar Patel Renewable Energy Research Institute) in Vallabh Vidyanagar, Anand on 28/02/2024.

The visit, organized by PAE, AAU, Dahod, aimed to enhance the students' understanding of renewable energy applications, sustainable agriculture practices, and the latest technological advancements in the agricultural sector.

The collaboration between the staff from AAU and SPREI ensured that the educational visit was well-organized, informative, and provided a comprehensive learning experience for the Polytechnic Agricultural Engineering students. The diverse expertise of the staff involved contributed to the success of the program and enriched the students' understanding of agricultural engineering and renewable energy applications. A total 50 nos. students (Second & Fourth Semester) were participated in a tour along with three faculty members. The tour was successfully organized by Er. Mahadev Khardiwar, Er. J.B.Bhimani and Dr. Zeal Aacharya under the guidance of Principal Dr. B.K.Yaduvanshi.
