A lecture on **Agriculture, Climate Change and People's Biodiversity Register**

As a part of BACA Platinum Jubilee Celebration under guidance of Hon. Vice Chancellor, Dr K B Kathiria, an expert lecture on 'Agriculture, Climate Change and People's Biodiversity Register', was organized by Department of Agricultural Meteorology on Wednesday, July 27, 2022 at 1100 h in Examination Hall, BACA, AAU, Anand.

Dr Rahul Mungikar, an eminent conservation biologist and Member of Academic Council, AAU, was invited as a resource person to deliver this lecture.

After floral welcome, Dr M M Lunagaria, Associate Professor and Head, Department of Agricultural Meteorology narrated relevance of the topic and introduced the guest speaker.

The lecture by guest speaker thoroughly covered impact of climate change especially on yield of crops, its future projection and concerns in biodiversity. He also elaborated on People's Biodiversity Register, Biodiversity record keeping and how society can contribute in keeping biodiversity register at village level.

Dr Y M Shukla, Principal and Dean, in his concluding remarks emphasized on inclusion of study of climate change and biodiversity conservation in regular syllabus of Plant physiology. A memento of BACA platinum Jubilee Celebration was presented to Dr Rahul Mungikar by Principal and Dean.

At the end, Dr V B Vaidya, Assistant Professor, Department of Agricultural Meteorology proposed vote of thanks. Ms Suvarna Dhabale anchored the event.

This lecture session was attended by about 150 students and faculty members.
