

Polytechnic in Agricultural Engineering Dahod Students Gain Practical Insights into Micro-Irrigation at Royal Irritech Pvt. Ltd., Sujitra, Anand

In a significant initiative to enhance practical exposure and skill development in micro-irrigation systems, students from the Polytechnic in Agricultural Engineering, Anand Agricultural University, Dahod, visited Royal Irritech Pvt. Ltd., Anand on September 3, 2024. The visit was organized under the Training and Placement Cell, guided by Dr. F.G. Sayyad, Training and Placement Officer, along with teaching staff members Er. M.S. Khardiwar, Er. J.B. Bhimani, Dr. Zeal Acharya and Mr. N.D. Pandya.

Royal Irritech Pvt. Ltd., renowned for its expertise in innovative micro-irrigation solutions, provided a platform for the students to witness firsthand the latest technologies and practices in the field. The students had the opportunity to observe the functioning of advanced irrigation systems, understand water management strategies, and learn about the technicalities involved in micro-irrigation, which is vital for sustainable agriculture.

Dr. F.G. Sayyad emphasized the importance of such industrial visits for bridging the gap between theoretical learning and practical implementation. This visit aims to provide students with a real-world perspective on the advancements in irrigation technology and its role in improving agricultural productivity, he said.

The students expressed their gratitude for the insightful experience and highlighted how this exposure would enhance their practical knowledge, making them better equipped for future challenges in the agricultural engineering sector.

The visit concluded with an interactive session where the students discussed career opportunities in the micro-irrigation industry, reinforcing the efforts of the Training and Placement Cell in shaping the future of these aspiring agricultural engineers.

This initiative is part of the Polytechnic's ongoing efforts to provide hands-on learning opportunities and industry interactions, ensuring that students are well-prepared for their professional careers.
