

Thalassemia Testing Camp Organized at Polytechnic in Agricultural Engineering, Anand Agricultural University, Dahod

On 24th January 2025, the Polytechnic in Agricultural Engineering, Anand Agricultural University, Dahod, successfully organized a Thalassemia Testing Camp in collaboration with the Red Cross Society. This initiative aimed to create awareness about Thalassemia and ensure early detection for better health outcomes.

The program was graced by the presence of Mr. Jayanti Bhai Valand, a representative from the Red Cross Society. He delivered an insightful session, explaining the differences between Thalassemia Major and Minor, and shed light on Sickle Cell Anemia. His informative briefing was an eye-opener for the participants, enhancing their understanding of these genetic disorders.

Dr. F.G. Sayyad, Chairman of the SRC and NSS Programme Officer, inaugurated the event with a warm welcome to all present. He highlighted the importance of the Thalassemia testing campaign and its role in safeguarding the health of the student community. The event was efficiently framed and executed by the NSS and SRC units of the Polytechnic.

The program received strong support from faculty members, including Er. M.S. Khardiwar, Er. J.B. Bhimani, and Er. D.M. Paradava, Mr. H.R.Parmar, Mr.D.C.Vaghela and Mrs. Neha Jain ensuring its successful completion. A total of 60 students participated in the camp, out of which 30 students who were pending for the test successfully underwent testing.

This event reflected the institution's commitment to promoting health awareness and addressing genetic health concerns among students, fostering a proactive approach to health and well-being.
